American to expand

Further expansion in 1980 is planned at the American Steel Foundries plant in Granite City, which produced freight car truck castings at record levels during the fiscal year ended Sept. 30. Production exceeded the previous record set in 1978. Works Manager William P. Donovan said that the in-

Hit by two cars, killed

James Lewis Stewart, 64, of 1336 Edwardsville Road, was fatally injured when he was struck by two hit-and-run vehicles while he was crossing Edwardsville Road near his home at 4:55 p.m. Monday.

Police say they have been unable to find anyone who witnessed the accident, but have talked to several persons who heard a loud noise and looked outside to see Mr. Stewart lying in the street.

He was taken by a Granite City ambulance to St. Elizabeth Medical

Sidewalk, curb repair program

By GARY SCHNEIDER
of the Press-Record

Granite City officials plan to do a comprehensive inventory of streets, sidewalks and curbs in the city this spring as the first step toward an ambitious repair program, it was indicated at last night's City Council meeting.

Mayor Paul Schuler told the aldermen that such a program—to identify problem spots and list them for immediate repair—is recommended by the Illinois Municipal League to help reduce the city's liability in cases

where sidewalk, curb or street defects are blamed for injuries to pedestrians.

In such cases, the city could show that the defect in question was on a list to be repaired and every effort was being made to repair it promptly, he indicated. That could reduce judgments against the city for negligence, the aldermen were told.

His recommendation that the city participate in such a program came after the council heard a report on the status of a lawsuit filed by a Granite City man who alleges he fell, was in-

Busy 1980 in Madison

By MICK STRANGE
of the Press-Record

The year 1980 promises to be one of real progress, Madison Mayor Mike Sasyk told Madison-Venice Rotarians Tuesday at the club's luncheon meeting.

"Three major projects which the mayor, City Council and civic leaders have been working on for some time may become a reality during the new year, the speaker said.

"They are a Madison cable TV system, a mini-mail and the start of a new type of citywide trash pickup program.

"City owned and operated cable television could be operational within

five months. We have had two aldermen already visit the city of Valparaiso, Florida, and they have written a comprehensive report indicating the merit of the plan," Sasyk related.

"We are now going to send our alarm supervisor and city comptroller there

Nationally

Fuel, auto woes adding to recession

(Copyright 1979)

By Babson's Reports Inc., Wellesley Hills, Mass., December 27, 1979. Just a year ago we envisioned in our forecast for 1979 a slowing in the economic tempo of sufficient scope to create a technical state of recession, stemming from the effects of anti-inflation monetary measures.

We did point out, however, that the intrinsic strength of the economy would forestall a deep, prolonged business dislocation.

Instead, we looked for "real" gross national product to show only enough softening in the second and third

quarters of the year to constitute a recession. Visualized was a mild and brief setback, more in the nature of a spell of no growth, with the economy again on the mend by the fourth quarter of 1979.

The statistical evidence now shows that there was enough resilience to produce a sharp rebound in the third quarter, negating the spring slump.

So, even though 1979's final quarter was adversely impacted by the broader, more aggressive anti-inflation program instituted by the Federal Reserve, the year as a whole did not

suffer an economic recession. This was an impressive achievement in view of the heights to which interest rates and inflation had soared.

RECESSION THREAT

HEIGHTENED FOR 1980

Developments of the past three months have raised the odds that 1980 will experience the economic recession which 1979 escaped. The Fed's credit-tightening move took an increasing toll on business as the final 1979 quarter progressed.

When the results for that period are made public, "real" gross national

product (GNP ex inflation) will probably show some loss. Since we now expect this business barometer to move off further in the initial quarter of 1980, the required two consecutive quarters of lower "real" GNP readings will have been recorded to constitute a recession.

STEEPER, LONGER RECESSION
THAN PREVIOUSLY EXPECTED.

The staff of Babson's Reports looks, in fact, for the downward slide of "real" gross national product to extend through the second quarter of 1980. The

Gifts to schools are challenged

By WILLIAM W. SCHOOLEY
Granite City Township Attorney

On behalf of Mr. Nelson Hagnauer, town supervisor, Town of the City of Granite City, Madison County, Ill., I submit the following letter in reply to your (Mr. Arnold Intrator) letter of Aug. 31, 1979, a copy of which I attach hereto for your reference as Exhibit No. 1.

The Town of the City of Granite City has by agreement with the local School District, Community Unit School District No. 9, and its booster organizations erected a lighting system on the existing baseball field and soccer field, owned and maintained by the School District.

(Continued on Page 24)

Popular—but is it legal?

First of two articles

One of the thickest stacks of legal briefs in local memory is accumulating as a dispute continues on whether Granite City Township should have shared its federally shared revenue with groups aiding local schools.

All seem to agree that it was a popular step to provide \$50,000 for lighting soccer and baseball fields on Fehling Road and \$20,000 for installing bleachers in the High School North gymnasium. First

Ward Alderman Charles Douglas is pressing his view, however, that it was contrary to law.

Some of the contrasting opinions of Douglas and Granite City Town Attorney William Schooley are presented in accompanying articles. The alderman opposes such use of revenue sharing and the township attorney says the transaction was appropriate.

Alderman Douglas, who is an attorney, feels inadequate attention

By CHARLES R. DOUGLAS
Alderman, First Ward

I address this letter to the Chief of the Opinions Division in Springfield, Shaun Denny, Office of the Attorney General, State of Illinois.

This letter is a response to a telephone conversation with Mr. William Wallin. I refer the reader to attached Enclosure No. 1, a letter from Mr. Wallin dated Oct. 2, 1979, informing me that he had not personally received my earlier correspondence of Aug. 2, 1979, and was unable to locate it.

That correspondence consisted of a copy of a letter to the United States Secretary of the Treasury, Office of Revenue Sharing in Washington, D.C.

(Continued on Page 2)

Douglas

(Continued from Page 1)

concerning the alleged illegal expenditures of Federal Revenue Sharing Funds by Granite City Township.

Copies of this letter, detailing the legal basis of my earlier submitted complaint, were also mailed to the Office of Revenue Sharing, Mr. Paul Simmons, assistant to Governor Thompson, and to Mr. Dale Yung of the Department of Local Government Affairs.

I am, therefore, enclosing a second copy of this letter since Mr. Wallin was not able to locate my previous mailing. It is labeled Enclosure No. 2 and includes 21 exhibits.

Since that original mailing there have been considerable communications between myself, Mr. Wallin, the Office of Revenue Sharing, and Mr. William Schooley, attorney for Granite City Township. I am enclosing copies of those communications, along with the following further commentary.

After receiving my complaint (Enclosure No. 2), the Chief Counsel, Arnold Intrater, of the Office of Revenue Sharing, requested by letter that Mr. Nelson Hagnauer, township supervisor, and Mr. William Schooley, township attorney, seek an opinion from your office and forward it to their office so that he could properly evaluate my complaint and proceed with an administrative ruling.

Meanwhile, I contacted Mr. Wallin by phone to inform him of the Office of Revenue Sharing's request, since neither Mr. Hagnauer nor Mr. Schooley had publicly indicated that they intended to comply with the request. In fact, this request and a subsequent request have yet to be presented before the Township Board for its information and consideration.

Mr. Wallin indicated to me during that phone conversation that the Attorney General's Office does not normally give opinions upon request to townships.

He also questioned the Office of Revenue Sharing's desire to obtain the opinion.

I must emphasize that this official attitude seems contrary to the attorney general's previous conduct with respect to Opinion 1974 S-693 (See Enclosure No. 2, Exhibit No. 4) and in consideration of the statutory duties described in Illinois Revised Statutes, Chapter 14, Section 4.

In this regard, I sent a letter to Mr. Wallin dated Sept. 21, 1979, outlining my position on this matter and received his acknowledgment on Oct. 2, 1979.

The acknowledging letter, as I previously mentioned, stated that the Attorney General's Office had not received any correspondence from Mr. Hagnauer or Mr. Schooley. The letter also stated that I would be informed if there was any future correspondence from these gentlemen.

In conjunction with the Sept. 21 letter to Mr. Wallin, I sent a letter to Mr. Intrater of the Office of Revenue Sharing relating the above described communications with Mr. Wallin and suggesting that he contact the Illinois Attorney General's Office directly, since obviously that office had done so in the past, i.e., Opinion 1974 S-693.

During the period of the last two above referred letters, Mr. Schooley finally responded to the Office of Revenue Sharing outlining his position, including an extremely superficial supportive opinion from Donald Smith, Chief Civil Assistant State's Attorney from the Madison County State's Attorney Office.

I should stress that Mr. Smith probably did not have the benefit of reading the analysis presented in my Aug. 2 letter.

Mr. Schooley did have that benefit, however, and yet his analysis was also extremely shallow and cursory, failing to address any of my contentions squarely.

I will now discuss Mr. Schooley's analysis as outlined in his letter of Sept. 17, 1979, to Arnold Intrater.

First, let's examine Exhibits No. 2, 3, and 4 purporting to authorize the School District to enter into an agreement with the Township of Granite City and the Granite City High School Boosters.

Attached Exhibit A purports to be an agreement between these parties allowing the public to use the facilities pursuant to a previously enacted School District policy statement.

This policy statement, drawn up two years prior to these questioned expenditures, relates to any and all school facilities and not specifically to the resultant capital improvements.

The agreement is not even dated. Why?

The alleged "agreement" was drawn up long after the Granite City Township Board had already approved the expenditure (Town Board Minutes of May 15, 1979, and attached Township Budget and Appropriation Ordinance) and long after bid requests had already been solicited and received.

Publication was dated one and a half months prior to approval of the expenditures by the Township Board, requesting bids two days after presentation to and approval by the Board on May 15.

At the time of Town Board approval of the expenditures May 15, Mr. Hagnauer openly admitted that there was no written or oral agreement or contract, but simply that the expenditures were gifts from the Township.

A letter from Donald Stucke, president of the Board of Education, to the Township Board dated July 19, 1979, acknowledged and thanked the Township for the "generous donation."

Exhibits No. 3 and 4 of Schooley's letter purports to be resolutions passed by the Township Board. These resolutions were presented after the Township Board

had already approved the expenditures and, ironically, on dates when I was not present to offer my objections.

These resolutions purport to establish bargained-for agreements after the gifts had already been approved, and were drawn up by Mr. Schooley simply and only because I had filed my complaint.

In addition, they are signed by Paul Schuler, who to my knowledge has not been authorized to sign resolutions in representation of the Township. He is simply one of 15 Township trustees.

All of this was accomplished long after the approval of the expenditures and simply to make the whole transaction appear to be above board, when in actuality the gifts had already been made.

An examination of the record clearly demonstrates the supercilious confidence exhibited by Mr. Schooley and Mr. Hagnauer that they would accomplish their gift, obviously after already having conferred with the Boosters and the School Board.

The motion to advertise for bids for the athletic field lighting project was made at the April 4, 1979, Township Board meeting, a full month and a half prior to the board's approval of the expenditures, and prior to a farcical public hearing conducted on the proposed Revenue Sharing expenditures, and prior to a farcical Township Board meeting on May 15, 1979.

At that hearing, I thoroughly presented my objections and requested them at the Township Board Meeting, but to no avail.

Mr. Schooley and Mr. Hagnauer have had nearly total control of Township expenditures with a virtually guaranteed rubber stamp by the Township Board.

Even though faced with considerable material outlining my position, they proceeded with the request for approval of the expenditures without

hesitation.

Mr. Schooley's status as Township attorney and School District attorney hangs over this whole transaction like the poetic albatross, in my opinion.

Certainly, Mr. Schooley and Mr. Hagnauer must have promised the Boosters and the School Board that they could "get the money" for what on the surface appeared to be a worthwhile project, and they didn't intend to allow one trustee's objections to stand in their way.

Mr. Schooley, even today, has never even so much as attempted to sincerely answer my complaint. Instead, he and Mr. Hagnauer continued with their plans unabashedly and with impunity.

The bids were solicited, accepted, and construction completed before the Federal Office of Revenue Sharing could even begin to analyze the transaction.

No doubt the action won approval of a substantially influential group of citizens, and aided Mr. Hagnauer's political standing.

Yet, when it must be considered whether the expenditures were legal and whether they were really in the best interest of the citizens for whom the moneys were granted.

Exhibit No. 9 of Schooley's letter, the bid specifications and forms, present another series of interesting questions.

Two bids were received on the athletic field lighting project, one from Dron Electric of \$75,880 and another from Rite Electric of \$79,385.

Dron Electric submitted a letter with its bid. The letter refers to an alternate bid submitted for a lighting arrangement different from that specified in the advertised bid specifications.

In other words, Dron Electric may have had information available to them that Rite Electric did not, certainly a definite advantage.

As it turned out, the "alternate bid" may have been accepted without the other bidder having an opportunity to bid the alternate lighting arrangement or having knowledge of the "original proposal," in my opinion.

The School District's written policy for use of school facilities allows use by the public only at the School Board's absolute discretion.

There was no agreement prior to approval of the questioned expenditures, but even if there had been, this policy statement provides no definable rights for use of the facilities by township residents.

It only provides for the discriminatory use upon the School Board's approval. The School Board may arbitrarily deny use to any citizen.

In reality, there was no bargain or contract negotiated for the township citizenry.

The expenditures were purely outright gifts. And the bid attempts by Mr. Hagnauer and Mr. Schooley to display a contractual agreement are ludicrous.

Exhibit No. 11 purports to show use by the public of the capital improvements financed by these questioned expenditures.

This paper indicates no use of the athletic field lighting system. The

North gymnasium addition to my knowledge has not even been constructed yet.

This paper is simply an irrelevant listing of the use of other School District facilities. As far as I can tell, they are totally unrelated to the questioned expenditures.

A 1976 Attorney General's Opinion, S-1057, does not support Mr. Schooley's viewpoint one iota. Undoubtedly a Township can contract with a Park District or a School District to spend Federal Revenue Sharing Funds for "ordinary and necessary maintenance and operating expenses."

These expenditures, however, were for capital improvements, not "ordinary and necessary maintenance and operating expenses."

Exhibits No. 13, 14, and 15 do not in any conceivable manner address my complaint, but simply add window-dressing to Mr. Schooley's already unsubstantiated viewpoint.

On page two of his letter Mr. Schooley cites Chapter 127, Sections 741-748 of Illinois Revised Statutes.

Section 745 refers to a "contract" which sets forth fully the "purposes, powers, rights, objectives, and responsibilities" and one which must be "authorized by law" and "authorized by the governing body."

There was no contract. The alleged agreement included that Mr. Schooley's exhibits was authorized after approval of the expenditures and, therefore, not bargained for, nor negotiated at arm's length with the township people in mind.

The alleged contract gives the township residents nothing that they did not already possess; and that possession being only the opportunity to use the facilities at the School Board's discretion.

Mr. Schooley cites Illinois Revised Statutes, Chapter 122, Section 167, purporting to give the School District authority to accept gifts of real estate and authorizing them to maintain and equip recreational grounds. So what?

I am not questioning such an authorization. This controversy is not at all concerned with gifts of real estate or maintenance of athletic fields.

We are concerned with transfers of money not authorized by law, their questionable value to the public, and whether they are detrimental to the people for whom the money was obtained.

Mr. Schooley's cite of Illinois Revised Statutes, Chapter 139, Sections 126.10 and 38 together with his conclusions do not even begin to scratch the surface of the analysis previously submitted in my correspondence of Aug. 2, so I will not rehash the matter with repetition of the matter, but simply refer the reader, to that enclosure.

In conclusion, it is my express wish that the matter be resolved with all due promptness and that the Attorney General's Office scrutinize the questions presented with all due care. The questions presented, I feel, are of utmost importance to the maintenance and proper handling of the taxpayers' funds by those elected and appointed to serve them.

American Steel

(Continued from Page 1)

protection systems, and dust collection equipment.

Looking ahead to 1980, Donovan said the plant will embark on a major expansion project which will include a new molding line, an expanded core department, and a new facility for side frame finishing.

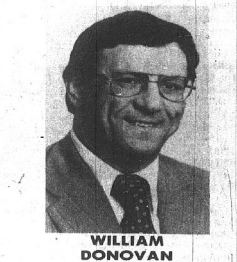

New shotblasting equipment, cranes and other associated material handling equipment will be installed.

The engineering work for the project is almost completed, and the majority of the construction and installation work will start in the spring of 1980, with expected completion by January 1981.

Donovan said that the high level of new freight car building is expected to continue in 1980.

"The outlook remains bright for railroad equipment due to the increasing use of railroads, which are fuel-efficient in bulk commodity hauling," he commented.

The mammoth Granite City facility is one of four plants operated by

WILLIAM DONOVAN

American Steel Foundries, a division of AMSTED Industries, which is a diversified manufacturer of products for railroads, construction and building, and general industry.

Fatality

(Continued from Page 1)

Center, where he died in the emergency room at 5:50 p.m. An inquest is to be scheduled to determine the cause of death.

Officers said yesterday that they have conducted a house-to-house canvass of the neighborhood and their investigation indicates Mr. Stewart probably was crossing Edwardsville Road in a westerly direction near 13th Street when he was struck on the left side.

There also are indications he was run over by a second vehicle after being knocked down by the first, investigators said. Neither vehicle remained at the scene and witnesses who said they heard the noise and looked outside seconds later told police they did not recall seeing any vehicles near Mr. Stewart.

There were no skid marks on the pavement or evidence that the motorists who struck the pedestrian attempted to stop or avoid the collision. Anyone who may have been driving in the vicinity when the accident occurred and saw anything related to Mr. Stewart's death is being asked to

contact the Granite City police department to aid in the investigation. Information received will remain confidential, officers pledged.

Mr. Stewart sustained severe injuries to the left thigh and left lower leg in the accident.

He was born in and had lived in St. Louis until moving to Granite City 18 years ago.

He is survived by one brother, Raymond Stewart of Madison.

Funeral arrangements are given in the obituary column.

RESTITUTION ORDERED

Geraldine Gibson, 41, of 9 Nicholas Lane, Pontoon Beach, has been sentenced by Associate Judge John W. Day in Madison County Circuit Court to serve two years of probation and to make restitution totaling \$2,221 after she pleaded guilty to theft, according to court records.

Word problems, writing and foreign languages challenge Illinois students

By DR. JOSEPH M. CRONIN
Illinois Superintendent of Education

How well are we doing in the classroom? How good have Illinois schools performed?

I question the use of ACT or SAT scores as an indicator of overall success of our schools. Such tests supposedly help colleges decide whether a student can succeed, if admitted, or to advise a family whether admission is at all possible at certain colleges.

No one ever planned to make College Board scores the Dow Jones average of American education; but every year, the press carries stories about the downward trend nationally—a sort of academic recession.

But this is not so with our Illinois scores in the past five years. Our SAT math or quantitative scores remain at 511, or 40 points above the national average, with no decline at all since 1970.

Our SAT verbal scores at 467 are 30 points above the national average with no decline since 1975.

Some of our local scores and individual performances are amazing. Evanston Township High School, while losing students, actually expanded the numbers of National Merit Scholarship finalists in three of the last 4 years.

In Rockford, Daniel Voll by his senior year performed so well last year he was awarded \$17,000 in scholarships and merit awards—in an industrial city whose SAT scores are higher than the state of Illinois as a whole.

The State Education Board in 1975 asked local school districts to begin teaching the metric system so that by 1980 we could convert if the nation was ready.

We sell wheat by the metric ton and import automobiles with parts calibrated in millimeters. We buy beverages in liters and someday will need to know how many kilometers to drive to Springfield or Chicago.

As of 1976, only 20 percent of our 11th graders could solve very basic metric problems. By 1978, after hundreds of teachers' workshops sponsored by the State Board, 75 percent of the 11th graders could handle basic metric measurements. We acknowledge this as measurable progress.

As of June 1979, 75 percent of local school boards had begun the process of reviewing curriculum objectives and achievement tests in response to legislative rumblings about mandated competency tests.

Senator Nimrod has asked the question, "What about the other 25 percent?"

He raised that issue in Peoria recently at the second annual superintendents' conference. At this point, the State Board and I are optimistic that almost every board has taken these three simple steps:

1. Requested the superintendent and staff to identify the educational goals, standards and achievement tests already in use.

2. Revised or updated the program of local achievement testing as needed.

3. Involved the teachers and the public in the review process, or at least communicated progress to the staff and public.

The State Board staff has conducted numerous workshops on evaluation and continues to make its services available. The state can provide the program service team members and the educational improvement money to help. We can tell you the mistakes to avoid, and some are being made—such as not allowing lead time for new standards, or not providing a chance for remedial work, or treating handicapped students like regular students, which is contrary to the Individualized Plan Requirements in the federal law.

Where can Illinois schools improve in the area of basic skills? As state superintendent, I welcome the chance to point out several priorities for consideration: 1. One is mathematical problem-solving. Our students can add. We know this because our Illinois Inventory of Educational Progress reveals positive

results over several years. Our students can multiply. But they have problems with word problems—the actual kind that consumers face in buying an automobile or an appliance, calculating interest rates and percentages.

Problem-solving involves a high level of concentrated thinking, reasoning, and the application of skills. Most students do not need more work with flashcards but instead with applied problems—and this is true about measurement problems (distance, speed, etc.), either before or after metrics.

I believe the new pocket calculators and microcomputers will speed up the number of problems we can solve in an hour. But, new math or old, we must see that our students know how to use these devices to solve the problems.

2. The second concern is writing. I favor correct spelling and grammar; but most of all our students, especially in secondary schools, need practice in writing.

Not only the English teacher but the science and social studies teachers share an obligation to promote clear, thoughtful expository writing on a paragraph, and a clear sense of direction and logic to each paper.

Our universities continue to complain about the low level of writing skill even among our more able students. The Illinois Board of Higher Education and State Board have begun to examine ways to provide help to local boards and teachers.

We may all need to work for several years on ways to improve writing—not diagramming sentences, but giving students more opportunities to develop themes, argue a position, defend a point of view on paper and get useful comments back from the teacher.

The President's Commission on Foreign Language and International Studies has just delivered a major indictment of the low foreign language enrollments and limited instruction in the nation.

Does Illinois fit the national pattern? Regrettably, yes.

Illinois high school enrollments grew by four percent from 1975 to 1978, but

Spanish enrollments dropped by 13 percent. French enrollments dropped by 25 percent.

German enrollments dropped by 25 percent. Russian enrollments dropped by 40 percent.

Can we tolerate or justify this trend?

Not when Sylvia Porter, the economist, says the average wage of young engineers, accountants and salespersons is 10 to 15 percent higher for graduates who have fluency in a foreign language; not when the U.S. foreign service is forced to waive the foreign language requirement for future diplomats; not when 10,000 Japanese businessmen in the U.S. speak English but only 950 U.S. businessmen in Japan speak Japanese.

Not when the balance of trade has turned against the U.S., but Arab sheiks and Russian grain merchants know and understand our language. Not when the fastest growing minority population in America is coming to us from Spanish-speaking countries and possessions.

Much has and will be done to revive the study of languages. The State Board of Education commends the Chicago Board of Education for establishing language academies. We applaud their decision to teach Russian, Japanese, Chinese and Arabic in the Chicago schools.

We have awarded Chicago extra federal funds to demonstrate how languages

can be taught at all levels. We will help downstate schools maintain and improve existing language programs.

We will publicize successful efforts to recruit students into foreign language programs. We ask all to consider proposals for expanded federal support for language enrollment, especially for the second, third and fourth year of foreign language classes.

We need to worry about international education as a part of our overall concerns for the economy and the good

of the planet. How many of us can identify the new nations of Africa? How well do our schools teach the history of our foreign relations 1945-1979? We have work to do in the 1980s.

I'm also concerned about the current national debate over vocational education. Vocational and technical education in Illinois is the number one source for the skilled labor needed by business and industry. We've added helicopter repair, environmental control technology and word processing.

Since the Bureau of Labor Statistics forecasts that as many as 80 percent of tomorrow's jobs won't require a four-year degree, it offers an increasingly acceptable alternative to the baccalaureate program.

The worth of vocational programs has been challenged in recent weeks, however, in some news stories.

The study quoted is nearly two years short of being completed, and the "findings" were just the opinions of two persons who, along with others, were com-

missioned to write papers that would assist in preparing a plan for the study.

These stories have left a negative impact and threaten to undermine support for vocational education. We must document that vocational programs in this state are exceedingly effective.

Illinois enrollments in vocational programs have increased 25 percent since 1972. About 90 percent of those taking a vocational course express satisfaction with it and would recom-

mend it to a friend. Illinois employment rates and income levels are higher for those with vocational training than those without it.

Increased participation by minorities, disadvantaged and handicapped students has enhanced career prospects for those groups appreciably.

Cooperative vocational programs and the newer High Impact Training Services Program for adults bring almost immediate economic benefits to individuals participating as

well as the community and state.

The State Board of Education has a strong commitment to vocational education. But it's a commitment that challenges local education agencies to respond with evidence of performance.

We'll be able to strengthen the case through follow-up studies of former students, through examining placement records, through working relationships with business and industry and, of course, through individual success stories.

OUR EDUCATION
"The Lion's Mane System"

We believe education is the key to growth. Our stylists are trained to keep abreast of current trends in the beauty industry. We were the FIRST with IN-SALON TRAINING. We hired JAY SHAPIRO, the leading stylist in St. Louis, to conduct twelve workshops for our stylists. We were the FIRST to send our stylists to SCHOOLS IN ENGLAND AND EUROPE. Through our extensive education we were the FIRST to bring you WASH AND WEAR DESIGNS. We have also brought you the wedge, stack perms, drop out designs, asymmetric designs and many others.

Economic outlook

(Continued from Page 1)

recession, therefore, will very likely last a bit longer than we had previously anticipated.

Also, the depth of the down-trend is currently expected to approximate 4 percent from the high of the third quarter of 1979. The scope of the recession we now foresee is not unrealistic since we have experienced only the early effects of the anti-inflation program started in 1979.

In addition, the fight has been made all the more difficult by the further climb in prices for petroleum products. And the implications of conditions in Iran and of U.S.-Iran relations are anything but reassuring for the petroleum picture, in terms of both prices and supplies.

This does not augur well for the domestic automobile industry which has been in a beleaguered state for many months, and the tightening of credit compounds its troubles.

Extremely high borrowing costs and scarcer mortgage money are hurting residential building. Therefore, neither of these key industries will be of much help in 1980.

Fortunately, there are no massive imbalances to correct. Except for the excessive supplies of high-gasoline consumption autos relative to retail demand, there are no appreciable inventory problems in the economy. Hence, this time of conditions in the economic adjustment is not expected to be as vicious as the last recession.

The first two 1980 quarters will see the business tent on the wane, with the first three months likely to bear the brunt of the losses. By the time summer rolls around, the economy should stabilize and perhaps edge a bit upward.

The final three 1980 months will make additional headway, with vitality somewhat more evident. But the upturn in the second half of 1980 will not be as power-packed as the rebound from the last recession because inflation will be difficult to defuse. While the economic recession will not be unduly painful, neither will the ensuing recovery phase be initially vigorous.

A GREAT MANY UNCERTAINTIES. Make no mistake, there are problems and uncertainties which are capable of inflicting greater damage to the economy than may now seem likely. The uncertain economic climate itself and the questions which are sure to arise in the quadrennial national elections, including those concerning anti-American violence, must be watched closely. Moreover, the course of the battle against inflation must be monitored, so it would be ill-advised to project a more optimistic outlook right now.

SLOWER INFLATION
PACE POSSIBLE

There can be little doubt that inflation has been one of the bane of 1979. While there seems little early prospect of any perceptible remission in the inflation rate, the Federal Reserve is of the opinion that some headway can be made against inflation in the year ahead. As the winter progresses, recession-muted demand can help to damp its fires, and bring additional slowing in the inflationary pace further on in 1980.

The task will not be easy and the problem will likely prove stubborn. From this vantage point, we feel that inflation can be wrung down to a rate of around 10 percent for the year as a whole. This would still be a higher level than is good for the economy, but the decline would be welcomed.

GROSS NATIONAL PRODUCT
In current dollars, the nation's gross national product (dollar value of goods and services produced) will continue to trend upward.

But this will be mainly due to the impact of inflation, and the rate of increase will not be as great as that of 1979. "Real" GNP (the constant-dollar GNP — i.e., in terms of the 1972 dollar) is now expected to fall about 2 percent for the year as a whole versus the 1979 average.

While the exigencies of a political year will likely bring some federal pump-priming moves by spring, nevertheless, as indicated earlier, we think "real" GNP will decline moderately in the first 1980 quarter and moderately in the following three months.

A flat-to-uptilt pattern is expected in the third quarter, with an even better showing in the final quarter. Any substantive recovery signs prior to midyear seem unlikely because of tight credit, still onerously high levels of interest rates and inflation, and upward-moving fuel costs.

INDUSTRIAL PRODUCTION
We look for industrial production to trend lower through mid-1980. Since a good deal of the decline will be recouped over the second half of the year, we feel the annual rate of industrial activity will average only about 1 percent below the 1979 average.

Bear in mind that auto production and related businesses have already been working downward for the better part of 1979, as has home building. But these two sectors should lead the late-1980 recovery.

BUSINESS INVENTORIES
One of the unusual aspects of the long period of economic rise since the spring of 1975 is the orderly manner in which business inventories have been expanded — mostly in step with the up-trend in sales. Disproportionate inventory positions were quickly brought back into line by price-markdown sales efforts.

Thus, with the above-mentioned exception of hard-to-move gasoline guzzlers in the automobile field, there is no glut of inventories to liquidate. Despite the acceleration of inflation's pace, most inventory positions have

been kept trim. This has been due to the agonizing experience of the last recession, the extremely costly rates of borrowed capital over the past two years, and the ability to monitor inventory positions closely with the help of computers.

But while the economy is not expected to be unduly disrupted by inventory liquidation under duress on a widespread basis, neither the business accumulation be an important factor in helping to lift business activity in most of 1980.

BUSINESS CAPITAL EXPENDITURES

Business capital outlays for new plant and equipment will rise about 10 percent in current dollars owing to the effects of inflation, but — as in the case of the GNP — there will be a slight year-to-year slippage in constant dollars.

With the ease-off in industrial activity taking the pressure from high-level capacity utilization, incentive to expand will not come until late 1980.

LABOR FRONT TO REMAIN ACTIVE

1979 was a busy year on the labor front, and it will be very active again in 1980. However, with most of the major contract expirations coming around midyear — i.e., in construction, communications, steel, aluminum, and metal containers — the early-year recession and the rise in unemployment will temper the aggressiveness of labor leaders.

BUILDING AND CONSTRUCTION
One of the pivotal industries helping to determine the course of 1980's economic achievement will be the housing field. After peaking out in 1978, new housing starts slowed down in the past year.

The high degree of inflation-hedge purchasing of both new and existing homes proved to be a substantial bolstering factor for 1979's economy. Nevertheless, high borrowing costs and scarce mortgage credit restrained new housing starts compared with 1978's superlative effort.

The tightness in mortgage credit and the high rates for mortgage money may not relent significantly before mid-1980. Hence, we forecast a sleep slide in new housing starts in the first quarter of the year, followed by a flat second quarter.

After midyear, loosening of the mortgage credit situation and less government intervention in the money market will facilitate improvement in home building; but even then new housing starts will do well to better the 1½-million mark.

Compared to the housing field, heavy construction has fared quite well in 1979, and we expect this relative strength to repeat in 1980. To help to this sector will be government efforts to bolster a troubled economy and provide employment opportunities for idled workers.

CORPORATE PROFITS — DIVIDENDS

Corporate profits will dip approximately 10 percent below 1978 levels. The slow tempo of business will deter price markups large enough to offset cost increases. The profits pinch will ease in mid-1980.

And with the less favorable profits picture, we do not expect a wave of dividend increases like that in 1979. However, widespread reductions in disbursements are not in the cards.

WAGES AND PRICES

As indicated earlier, we believe the business decline will have a tempering effect upon the aggressiveness of labor in 1980, and yet bargaining for new labor pacts will produce many wage hikes. The administration's non-inflationary guideline.

This is unavoidable, in view of the shrinkage of consumers' buying power during the life of the labor contracts about to expire.

The early-year softness in business will tend to inhibit the immediate flow-through of new wage increments in their entirety. Indeed, we would not be surprised to see occasional and spotty price down-shadings. But fuel and energy costs are being edged higher with an inevitable impact on transportation and distribution costs, and on operating costs in general.

Therefore, there will be price rises at the wholesale and retail levels, though not of the magnitude or pervasiveness of recent years.

EMPLOYMENT AND JOBLESSNESS

Because the recession we now foresee should not run dangerously deep, 1980 should not experience massive layoffs. Indeed, we are confident that employment can hover in a peak range, constituting a very important source of support for consumer confidence.

We do not expect a high-level upsurge in unemployment. Still, a rise in the jobless rate is inevitable, as it will be difficult for the economy to absorb all of the new entries and re-entries into the labor force.

For 1980, we expect unemployment to average around 7½ percent of the available civilian labor force, with a high point of around 9 percent.

PERSONAL INCOME — CONSUMER SPENDING

A generally stable employment picture, wage hikes, heavy transfer payments, and interest and dividend incomes will all figure as favorable factors producing higher gross personal income in 1980.

While the rise will not match the rate of increase established in 1979, our estimate is a jump of around 7 percent. However, take-home pay (disposable personal income) will manage only to edge forward.

The sustained peak level of personal income we anticipate will translate into better-maintained consumer spending than seems possible at this time.

Though much of the year will be flat, retail trade should end 1980 on a strong note.

AGRICULTURAL PROSPECTS
1979 has been a good year for most farmers. Prices for farm products have been strong enough to improve financial positions, and this has been another fine crop year.

The high level of farm exports should be maintained in 1980. Shortages in Russia and certain Eastern European countries, plus lagging Canadian output, are favorable to domestic farm exports, with consequent benefits to income.

DOMESTIC POLITICAL SCENE
The campaign for the Presidency will command a good deal of attention in 1980, but it should not materially alter the course of business. The primaries and the election may be bruising, and events such as this nation has had to endure recently could have an effect on the final outcome at the polls.

Charges, counter-charges, and campaign promises could shake business and consumer sentiment. At the congressional level, the battle for control of both houses will also be tough. However, the Republican party faces a hard uphill fight. It could make notable headway, but fall short of control.

GOVERNMENT SPENDING — TAXES

Government spending will continue upward in 1980, owing partly to inflation. Economic exigencies will spur outlays at all levels of government to fend off more serious dislocations.

Recession troubles will undoubtedly bring pressure for tax-cut legislation. Chances are favorable for tax relief, but that probably will not take effect until 1981. Enactment of a value-added tax is not likely for 1980, and attempts to pass Social Security levies are also likely to bear fruit before mid-year.

FOREIGN AFFAIRS

From time to time, business and investment sentiment could be shaken by unrest abroad. The recent appalling anti-American sentiment in many parts of the Moslem world may give other nations cause to doubt U.S. assistance capabilities.

Overall, this scenario, and priorities related to next year's election, do not promise well for worthwhile progress on important matters such as the Palestinian question and attempts to improve U.S.-Soviet relations. Brush fires in one or more of the world's many hot spots cannot be ruled out, but direct U.S. military involvement is not likely.

MONEY SUPPLIES — INTEREST RATES

The emphasis on anti-inflation credit tightening will restrain growth of the nation's money supply. However, economic problems and election-year considerations will very likely force some easing of the throttle on restrictive monetary policy around mid-1980.

Oppressively high interest rates are the most likely sign of easing, at least for short-term borrowing. Lower long-term interest rates, on the other hand, may not come much before the year's end. Overall, we look for a distinct betterment in the interest-rate situation by late 1980, but only as compared with recent peak levels.

While the U.S. dollar will probably be subjected to buffeting from time to time in the year ahead, the reining in of galloping inflation and betterment in the interest rates picture will be beneficial to the bond market.

Therefore, investors who commended to tie down near-peak interest rates at this time could be well pleased by 1980's end.

The strengthening of bond portfolios should initially emphasize issues with near or intermediate maturities before going further out on the maturity scale. Bonds with generous yields are in profusion, to the benefit of fixed-income investors.

These include taxable issues and tax-exempts, medium- and conservative-grade bonds, short- and long-term maturities and high-coupon and discount bonds.

1979 proved to be another year of frustration for most investors, with the stock market showing little progress. Although some stock groups and merger-bait issues did well at various times, the rest of the market was victimized by the unrelenting effects of foreign political upheavals, waves of anti-American demonstrations, and the unyielding grip of inflation and high interest rates.

But what was not accomplished in 1979 will benefit investors in 1980 — or at least those with the courage, patience, and foresight to go bargain hunting when attractive values abound.

Babson's Reports feels the stock market held its own under a number of ordinarily panic-producing circumstances during much of this past year, and that the year ahead can bring a shift toward more optimism and longer-term investment planning. There will be opportunities for all portfolio objectives.

Attempted sale of marijuana alleged here

Danny W. Byassee, 24, Belleville, was charged with resisting a police officer and attempted delivery of cannabis after an off-duty policeman allegedly heard him offer to sell marijuana to three juveniles in the parking lot of Tri-Mor Bowl, 3701 Nameoki Road, during the weekend.

The off-duty officer, who was working security for the bowling establishment, alleged he saw several youths get out of a car with open beer bottles in their hands.

Three juveniles and a young man went behind a van and when the officer approached, he alleged the young man asked the juveniles, "Do you want to buy some pot or window pane (street term for LSD)?"

The officer then walked to them, identified himself and confiscated the beer. When the young man asked for identification, he said he had none, the officer reported. When a police car arrived, the young man allegedly ran and the off-duty officer fired one warning shot into the air with his gun before chasing the man to a dead-end alley behind the bowling lanes.

Byassee was searched and officers alleged finding marijuana in his left sock and a scale in his jacket pocket.

He was taken before a judge in Granite City at 3:45 p.m. Monday and pleaded innocent to the charges. His bond was set at \$300 cash and he was taken to the Madison County Jail at 10:25 p.m. Monday.

PETER PAN'S CHRISTMAS, an original playlet written by a teacher, is presented in Wilson School gymnasium, just prior to the holiday break, by 65 pupils for fellow students and parents.

'Peter Pan' at Wilson School

Wilson School children presented their annual Christmas play for fellow students and parents.

The play, written by one of the teachers, was entitled "Peter Pan's Christmas." It was a takeoff on Peter Pan and his lost boys finding out about Christmas.

The cast of characters included: Peter Pan, Sherry White; Tinker Bell, Sherry Minder; Wendy, Lisa DeMann; John, Tim Bronnbauer; Michael, Michael Burton; Christmas Tree, Junior Riggs; Nan the dog, Dwayne Hagy; Princess Tiger Lily, Jaimee Paterson; Chief, Earl Warren; old Indian wiseman, Michael Schell; Indian braves, Jerry Van Gilder, Michael Minner; Norman Sanders, Richard Coin and Steve Williams.

Mary, Christy Wright; Joseph, Jimmy Judy; angel, Tracey Smith; wisemen, Eric Welker, Mike Jennings and Paul Hogan; drummer,

boy, Rex Snelson; alligator, Kenny Fisher; bridge, Cheryl Wade, Peter Stamboldjev, Debbie Jacob, Bradley Mullikin, Brenda Powell and Margone Hardester.

Captain Hook, Scott Harris; pirates, Bobby Smith, Gary Wilson, Ricky Wood and Thomas Wood; lost boys, Chris Barnes, Billy Bucks, Dwayne Sharp, Jimmy Wasson and John Wiser; baker, Angela Womack; sugar star cookie, Julie Combs; snowflake cookie, Carol Westbrook.

Santa Claus cookie, Melanie Lynn; drum cookie, Thiel Hampton; snowman cookie, Keith Woodard; Flapper Doll dancers, Suzanne Chilcutt, Renee Huett, Rhonda Jakul and Joyce Smith; Santa Claus, Craig Williams; Rudolph, Regina Gaspie; reindeer, Lisa Elkins, Jeanette Greathouse, Nichole Hopkins, Angela Minder, Joe Schmiedake and Cathy

Smoot; Mother, Ruth Ann Muir and Father, Eddie Dunnivant.

TAVERN IS SUED

Richard Peck has filed a suit seeking in excess of \$30,000 from Jerry Besserman and Joseph Besserman, operator and owner of Besserman's Tavern, 1200 Iowa St. The suit, filed in Madison County Circuit Court, alleges that on Jan. 17, Francis Click, a customer, was served alcohol and then a car she was driving was involved in an accident with Peck's car on Route 162 near 21st Street, resulting in injuries to Peck. The suit seeks in excess of \$15,000 for his injuries and a separate count under the dramshop act seeks another amount in excess of \$15,000.

UNDERCOATING
RALPH'S TEXACO
22nd & MADISON AVE.

for further research and look into this even closer.

"Valparaiso has less than 6,000 people in it. They had a private company operated cable TV system and became very unhappy with it due to costs."

"They invested \$249,000 in the city system, had it paid for in three and a half years, and were able to offer better channels at less money to the residents," Sasyk emphasized.

"The thing I like is that we will have the built-in emergency system for ambulance calls, fires and burglaries. We will be doing a feasibility study in the town before we actually start. We want to be sure the venture will work out, before we invest much time and money in it," Sasyk said.

The mayor told the Rotarians that after the system is functioning in Madison, it will be offered to Venice, Eagle Park and East Madison residents who want to participate in the project.

"The system will have with it eight monitoring cameras, which will be placed at key areas like the bank, 12th street and Madison Avenue and near the schools—places where there are frequently large groups. These will be monitored right at the police station," it was related.

To make the cable television project workable it is estimated that about 35 to 40 percent of the residents would need to subscribe to it, according to the mayor.

If everything goes well on the cable television project, it could be operational within the next five months, estimates indicate.

A new trash pickup program is to be tried in Madison for 90 days beginning

Mayor Sasyk

(Continued from Page 1)

April 1, with a goal of greater efficiency.

"There will be no cost to residents for the new service. Each home will have an 85-gallon container, and one man with a special truck will be able to pick up the trash," Sasyk said.

"No one will lose their jobs with the new system. We are short-handed now. Some of the men now assigned to pick up trash will be able to be assigned to other areas where we need them."

"It will be necessary to charge the businesses for trash pickup, however. This charge will amount to only between \$10 and \$25 a month."

"I believe Madison and Venice are the only two cities in the state that do not already charge for trash pickup."

"The new system will reduce cost and increase efficiency."

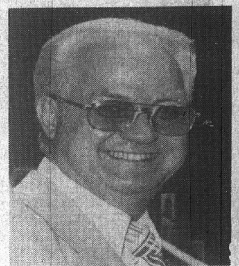

"We need to keep alert for ways of saving money and still provide services to our citizens," the mayor continued.

"Our other major project is, of course, the mini-mall and we have had a multitude of problems to work out between investors and the federal government (Housing and Urban Development Department) HUD people."

"We have had several franchisers ready to go and then back out, and they won't give you a real answer as to why."

"I am glad that the project is not dead, and it isn't—by any means. We have private developers that are seriously considering investing the money."

"We should know his answer within the next 90 days. As soon as enough private funds are made available to the project, the HUD funds will be available," Sasyk said.

MAYOR MIKE SASYK

"We have a meeting in late January with GSA people (General Services Administration) about the Granite City Army property."

"We are working with the other cities and developing a plan to present to the GSA, which could mean even more jobs and prosperity to our area," Sasyk said.

"I think we have a good city and we work with our citizens any way that we can to help them."

"It takes a lot of us working together to get something done. I am very proud of the way everyone helped and got behind our Christmas lighting program. Working together, 1980 will be a very good year," Sasyk said in closing.

20-year prison sentence

John Patrick McCullough, 19, of the 2000 block of Sixth Street, East Madison, was sentenced in Madison County Circuit Court Wednesday to serve 20 years in Menard

State Prison for the murder of 18-year-old William Aaron "Billy" Hodge March 29.

Mr. Hodge, who resided in the 1900 block of Rhodes Street, Madison, died of a cut

to his throat and his body was found in the Bend Road area near Horseshoe Lake.

Authorities contended Mr. Hodge, McCullough and another man had been together at a party the night of the murder and that Mr. Hodge's throat was cut while he was in the rear of the third man's car in the 1500 block of Fifth Street in Madison.

The body then was taken to Bend Road, where it was dumped from the car about a mile east of Route 203, authorities believe.

McCullough pleaded guilty in November before Circuit Judge Victor J. Mosele, who ordered a presentence investigation before sentencing.

Judge Mosele Wednesday recommended that McCullough be treated in the psychiatric ward of Menard during his imprisonment.

John Walker, 51, succumbs

John E. Walker Jr., 51, of 4204 Lake Drive, Ill. for 20 years with Parkinson disease, died at 10:50 p.m. Tuesday at Shapers Hospital, Quincy, Ill., where he had been a patient for three days.

A lifelong resident of Granite City, he had moved to the Illinois Veterans' Home in Quincy two years ago.

Mr. Walker had been employed for 10 years as an inspector at McDonnell-Douglas Corp., St. Louis, before he retired in 1968.

He was an U. S. Army veteran serving from 1950 to 1962.

Mr. Walker was a former member of St. Peter Evangelical United Church of Christ and a past member of Amvets Post 51.

Survivors include his wife, Mrs. Patricia (Hutchison) Walker; one daughter, Dawn E. Walker, at home; two brothers, Leonard Walker, Granite City, and Howard Walker, St. Louis; two sisters, Mrs. Gladys Kosa, Fairmont City, and Mrs. Normand (Frances) Vicknair, Alexandria, La.; and his mother, Mrs. Myrtle Walker, Fairmont City.

His father, John A. Walker Sr., preceded him in death. Funeral arrangements are given in the obituary column.

ARREST JUVENILES

Two Granite City youths were arrested early this week in the 2700 block of Iowa Street for an alleged curfew violation, and one allegedly had marijuana in his possession.

Leonard Crone, 17, of the 1100 block of Grand Ave., was charged with marijuana possession after a bag of leaves allegedly was found in a trousers pocket. A 15-year-old with him was released after police said they seized a flashlight, screwdriver and gloves in his possession.

Two juveniles were arrested early this week in the 2700 block of Iowa Street for an alleged curfew violation, and one allegedly had marijuana in his possession.

Two juveniles were arrested early this week in the 2700 block of Iowa Street for an alleged curfew violation, and one allegedly had marijuana in his possession.

Leonard Crone, 17, of the 1100 block of Grand Ave., was charged with marijuana possession after a bag of leaves allegedly was found in a trousers pocket. A 15-year-old with him was released after police said they seized a flashlight, screwdriver and gloves in his possession.

HOLIDAY SCENES displayed in the yard of Ernest Hale, 2236 Iowa St., for the holiday season. The Nativity scene, at right, and Santa Claus and his reindeer, at left, were

all hand-made by Hale, and some of the work has been displayed for more than 10 years. The large display stretches out in both directions from the Hales' yard onto adjacent

lawns. When possible, music is featured with the display for the children of the neighborhood and all to see and hear.

"GOD FORGIVES... LET HIM"

Mrs. Rodeck dies at 86

Mrs. Bessie (Lamaus) Rodeck, 86, of 2520 Hemlock Ave., died at 10:58 a.m. Monday at St. Elizabeth Medical Center.

She had been in ill health the last six months and was a patient at the medical center for three days.

Mrs. Rodeck had resided in Granite City for 47 years. She was a native of Steelville, Mo.

Before retiring in 1954, she was employed for some years as a baler at Con-

tinental Can Corp. in St. Louis.

Her husband, Albert Rodeck, died July 6, 1962.

Among the survivors are a son, Jack Rodeck of Granite City; a daughter, Mrs. Dorene Harper of Granite City; one sister, Mrs. George (Viola) West of Sullivan, Mo.; six grandchildren and eight great-grandchildren.

Funeral services were held at 11:30 a.m. today. Details are given in the obituary column.

File charges in burglary at Stefanie's

John L. Johnson, 26, St. Louis, was charged with felony counts of burglary and theft in informational documents issued by the Madison County state's attorney's office this week in connection with a burglary at Stefanie's Dress Shop, 18th Street and Edison Avenue, early Sunday, Dec. 23, in which 17 leather coats were taken.

Efforts to identify a second man allegedly involved in the incident are continuing, police said.

A witness told police she heard glass breaking and looked outside to see a man

run from the store carrying something. He got into a white over gold Cadillac which was driven by another man and they left south on Grand Avenue.

Police chased the car from 15th Street and Grand Avenue into Madison where the Cadillac allegedly struck a Madison Police Department squad car at 10th Street and Alton Avenue. The Cadillac then allegedly made a "U-turn" on Alton Avenue and the passenger jumped out and fled on foot.

The car and driver continued north on Alton Avenue, between two squad cars, but then pulled to the curb in the 1000 block and the driver got out and fled on foot.

He was chased to the Taurus Motel Co. parking lot, where he encountered a dead-end at a fence and was arrested.

The leather coats allegedly were found in the back seat of the car from which he fled. Johnson also is charged with ignoring five stop signs, two counts of reckless driving and two counts of fleeing from police in connection with the chase.

A search for the passenger who fled on foot was unsuccessful. Later, more than a mile from the abandoned car, a Madison officer reported seeing a young man run between two houses on Robin Street in Venice; the man matched the description of the one who fled from the auto. The officer said the young man took off an orange sweater or sweatshirt as he ran and threw it to the ground.

The Madison County Sheriff's Department sent its canine unit, but the dog was unable to locate the young man, even though the sweater was used to give the dog the suspect's scent.

The search of garages, parked cars and bushes in Venice continued for several hours.

\$1,000 BURGLARY
A \$500 stereo receiver and a \$500 cassette tape player were stolen from the downstairs apartment of Richard Haynes, 3004 E. 23rd St., between 1 a.m. Sunday and 3:45 p.m. Monday. Entry was believed gained through an unlocked door.

Textbooks, new quarter on Jan. 2

Students planning to attend classes at Southern Illinois University at Edwardsville during the winter quarter may pick up their textbooks beginning Jan. 2, according to James Oglesby, supervisor of Textbook Service.

The winter quarter schedule for textbook issues will be: Jan. 2, 3 and 4 from 8 a.m. until 8:30 p.m.; Jan. 5 from 8 a.m. until noon; Jan. 7, 8 and 9 from 8 a.m. until 8 p.m.

After that date, Textbook Service will return to regularly scheduled hours, Oglesby said.

Textbook Service is located in the basement of Lovejoy Library on the campus.

Individuals planning to attend the university during the spring and summer quarters for the first time are advised to apply for admission to the university as soon as possible after Jan. 2.

Admission applications are available in the Office of Admissions and Records, located in Room 1208 of the John S. Randleman building, or by telephoning 692-2720. Winter quarter classes will begin Jan. 2 at 4:30 p.m.

State funds outlook said to be sound

According to Robert L. Mandeville, Illinois Bureau of the Budget director, the state is in sound financial condition, marking the third consecutive year for that achievement.

Fiscal year 1979 ended with an available balance of \$390 million in the state's general fund.

Mandeville stressed that as the state ends calendar year 1979, the balance must be maintained in order to protect the state's AAA credit rating, guard against tax increases, provide a working cash reserve, avoid borrowing to pay current bills, and meet cash emergencies and unforeseen economic changes.

APARTMENT LOOTED
R. H. Liddell, 405 Madison Ave., Madison, discovered Sunday morning that sometime after 10 p.m. Saturday the lock to his apartment had been pulled from the door and entry gained. Items taken included cigarettes, a box of candy and \$12 in change.

Philippians 3:13... "Forgetting those things which are behind..."

The year is past. The successes or failures are past. What is done is done. We may or may not be pleased. One thing is certain, we cannot go back and do it over again. We cannot change what has transpired.

However, this is not to say that we can't change. We can and we must. Remember this: if you can't change facts, then you must change to the facts.

Paul's advice is timely. Forgetting those things behind I press toward the mark for the prize of the high calling of God in Christ Jesus. Let us be thus minded.

I pray God be with you in the New Year.

All mail delivered by Christmas Eve

"Twas the night before Christmas, and all through the post offices of Madison, Venice and Granite City not a single Christmas letter or package was left behind, "We were clean of mail

Christmas Eve," the postmasters said and added that the timely delivery was made possible by public cooperation. "Most people mailed their

cards and packages early, and for that we are grateful," they said in a joint statement. Postmaster Singleton, Officer in Charge Hight, and Granite City Postmaster Jack Wilkins also credited postal employees for the successful effort and praised news media for cooperating in getting "mail early" messages to the public.

North beats clock for first victory

By KEVIN ALLEN
of the Press-Record

BREESE — It was a position the Granite City North Steelers enjoyed. Something unfamiliar. But something they could quickly grow quite fond of.

With four minutes left in their game against Springfield Griffin last night at the Mater Dei Holiday tournament, the Steelers were trying to run down the clock.

Their skinny three-point lead loomed like a feast in front of a hungry man, and North looked as eager to jump in teeth first and gobble up its first victory of the season.

"It wasn't the smoothest display of final-minute stalling ever displayed on a basketball court, but looks have won few games.

And North, finally, rough edges and all, wound up 64-61 winners.

The Steelers passed and dribbled and occasionally went to the basket for the last four minutes, all the time ahead by less than five points.

"I don't think we started the delay game too early," Steelers coach Bill Ohlendorf

said in defense of the decision to stall.

"You've got to play basketball with confidence. You can't back down."

While no one saw any of the Steelers shirking the job at hand, neither was it evident they were old hands at protecting small leads.

North had its chances to be more comfortable, but when it missed four of seven free throws in the final two

minutes of the game, it was obvious that any victory would have to be by a slim margin.

"Our stall didn't look too good, but that's probably because we haven't been able to use it much this year. We could have put them away if we shot better from the free throw line.

But when it missed four of seven free throws in the final two

going to make the thing work."

The proof for that statement is that North's final points in the game, the ones that sealed the outcome, came in the form of Dennis Page free throws with 39 seconds remaining.

"That's when I knew we'd won," North forward Mike Robertson said. "When Dennis made those two free throws at the end."

If Robertson sounded less than confident, it may have something to do with the course of the game.

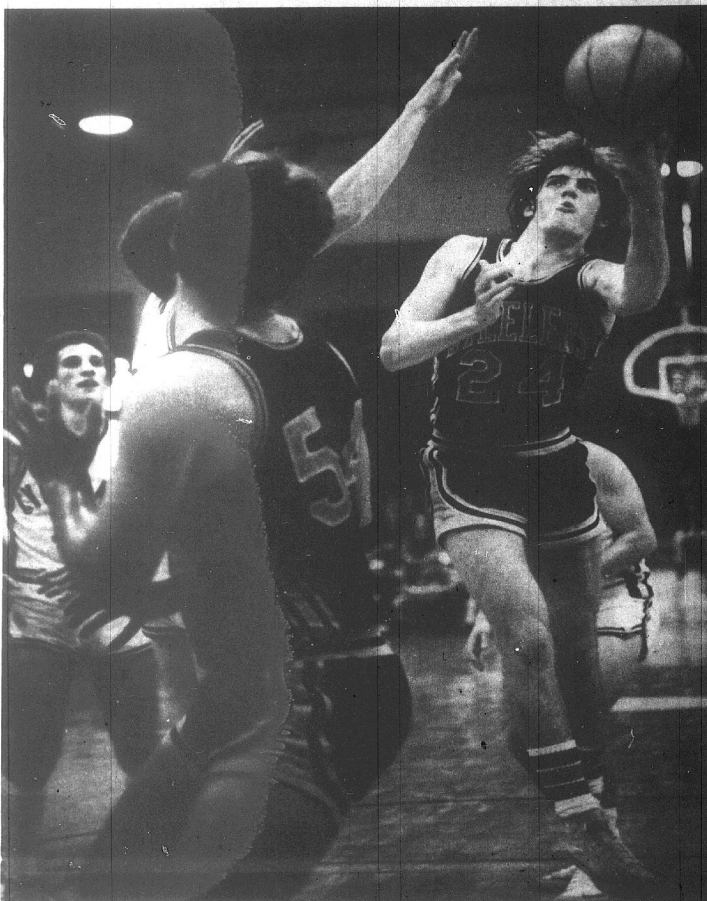

The Steelers saw Griffin's Cyclones cut the Steelers' 10-point lead at the end of the first quarter to one point by the half.

With the half-time buzzer sounding, Springfield's Dan Phabalt scored on a desperate shot from just in front of the half-court line, that completed the comeback with Griffin down 37-36.

The Cyclones scored 26 points in the quarter while North managed 17.

North gave up the ball nine times in the quarter, and Griffin turned the turnovers into points.

But in the first quarter, (Continued on Page 11)

DENNIS THE MENACE. Granite City North's Dennis Page drives for two points last night against Springfield Griffin in the first round

of the Brees Mater Dei Holiday Tournament. The Steelers won 64-61 for their first victory of the season.

Press-Record Sports

GRANITE CITY (ILL.) PRESS-RECORD, Thursday, Dec. 27, 1979—9

Madison rolls to win

By PETE HAYES
Sports Editor
of the Press-Record

COLUMBIA — Your team dominates almost every aspect of the game. Your team leads at every quarter stop. Your team wins by a whopping 38 points. You're pretty pleased, right?

Wrong, if you happen to be Larry Graham, head basketball coach at Madison High School. Despite his Trojans stomping hapless Red Bud 94-58 in the opening round of the Columbia-Freeburg Holiday Tournament, Graham wasn't completely happy with his squad.

"It's hard to keep up your intensity when you're ahead by so much," said Graham. "I thought we played in spurts, we'd look real good

for a while and then we'd let them off the hook."

Madison jumped out to a quick 10-0 lead in the first quarter, but couldn't put Red Bud's Musketeers away for the count. Red Bud managed to climb within four points at 14-10 midway through the period. But Madison pulled back ahead 28-16 at the end of the quarter.

"I thought we played pretty poorly on defense," said Graham. "But we had enough scoring on offense to overcome it."

The start of the game was delayed briefly because Madison's bus did not arrive in time at MHS to pick up the team. So, players had to drive to Columbia by cars. Madison did not arrive at Columbia High until there were only two minutes left in the game preceding the

Trojans-Musketeers contest. Madison did indeed have a balanced scoring attack. Five Trojan starters hit double figures. Junior sensation Morris Hughes topped the effort with 22 points. Charles Claggett had 20, Rickey Powers 12, Tyrone Echols 11 and Greg Lucas 10.

The victory for Madison means that it will face Anna-Jonesboro today at 6:30 p.m. in a winner's bracket quarterfinal game. A-J smashed Coulterville 71-51 yesterday in another first round game.

In other first round scores, Waterloo Gibault defeated Mulberry Grove and Lebanon beat Steeleville in the upper bracket.

Ahead 55-33 at halftime, the Trojans appeared on their way to a quarterfinal

game without much of a contest. But Red Bud saw things differently.

The Musketeers reeled off a tussle of baskets and cut the Trojans' lead to 11 points early in the period.

"It just seemed like we couldn't put a complete game together at once," said Graham. "But when you're winning big, it's hard to stay intense."

Will Madison have to play a better game to beat Anna-Jonesboro? "No," said Graham. "But we'll have to play better to win this tournament."

This marks the first year for Madison in the Columbia-Freeburg affair. Up until last season, the Trojans had played in the Brees Mater Dei Christmas Tournament, winning three cham-

(Continued on Page 11)

Steelers hope first victory a new beginning

BREESE — There were still seconds to go, but for the looks of the Granite City North bench the buzzer might already have blown. It was obvious the Steelers would win their opening-round game of the Mater Dei Holiday basketball tournament — their first win of the season.

North coach Bill Ohlendorf

The North players sitting next to him were smiling now after the tense minutes of watching the scoreboard were over.

On the court, the Steelers presented a limp defense, satisfied, now that the (Continued on Page 11)

Devils get lesson on way to first round tourney win

By PETE HAYES
Sports Editor
of the Press-Record

COLUMBIA — The night Venice had expected to wait past an over-matched foe and breeze into the quarterfinals of the Columbia-Freeburg Holiday Tournament turned out to be a night it discovered that nothing is automatic especially in prep basketball.

Upstart host Columbia gave Venice a lesson in humility here last night and gave the fourth-seeded Red Devils all they wanted before succumbing in the end 68-64 — and it took an almost superhuman effort by all-state candidate Donald Gardner to seal Columbia's fate.

Gardner, starting his first game since being involved in an auto accident — and his presence was a definite factor in the game. He scored 23 points, including the winning basket, and blocked a shot by Columbia's David Lambbeck with eight seconds left that would have tied the game.

"That was the game," said Venice coach Ken Perkins. "When Donald went up and rejected that shot, that was it."

"He played a hell of a game. Super effort." The victory for Venice moves the Devils into a quarterfinal clash today against Chester at 8 p.m. Chester whipped Livingston in another opening round game.

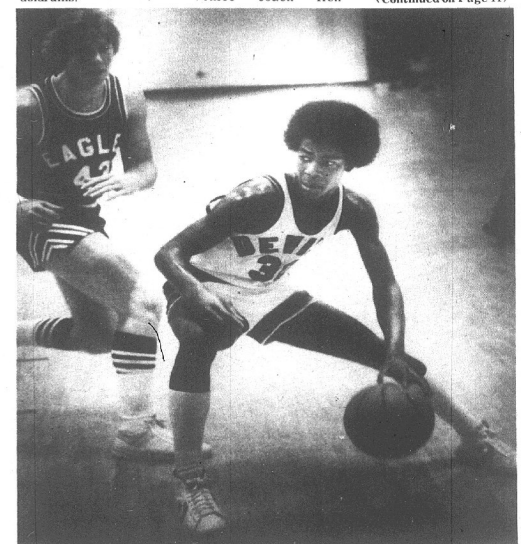

It took Venice almost three and a half quarters to wake up from its doldrums.

Columbia jumped out to a 10-2 lead early, hitting almost everything it shot.

Venice coach Ken

Perkins didn't call a time out. He let his team play on — obviously hoping it

Top wrestlers to converge on Granite City South today

GRANITE CITY — The 19th annual Granite City Holiday Wrestling Tournament at South High School here Thursday and Friday will probably do two things — things it has been doing since its inception: First, let area wrestling coaches and fans know just how there favorite teams will do against some of the best talent in the states of Illinois and Missouri; Second, determine just which teams ARE the best.

The South Tournament has become a tradition of sorts and annually helps sort through the teams in the area to determine just which are tops.

This season, the 16-team affair will include some of the top wrestlers from the St. Louis area, as well as Southwestern and Central Illinois. Probably the only area Illinois power not in the

tournament is Belleville West.

The tournament includes six of the top ten teams in the Press-Record High School Wrestling Coaches' Poll (see related story).

Teams entered are Granite City South, Granite City North, Belleville East, Cahokia, Roxana, East St. Louis Lincoln, Bloomington, Pekin, Riverview Gardens, Normany, McCluer North, Ritenour, Jacksonville, Wood River, Hazelwood Central and Stephen Decatur.

Both Granite City South prep coaches are anxious for the tournament to get started. It not only gives them a look at area teams, but also a look at each other and the first chance to wrestle each other this season.

"We really haven't met our toughest competition

yet," said South coach Bill "Red" Schmitt, the dean of Illinois coaches, now in his 30th year at the school. "The tournament always gives us a good look at everybody and should help pick out a number one team."

North coach Walt Whitaker praised the South meet. "You won't find a better tournament anywhere than the one here in Granite," he said. "It always gives us a chance to find out just where we stand."

The only disappointing feature of the tournament is the absence of West. Annually one of the best teams around, the Maroons have skipped the South meet.

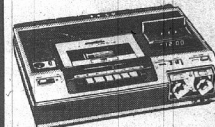

"We give our kids some time off around Christmas," said head coach John Weimer. "We enter the Mascoutah Tournament between Thanksgiving and Christmas."

Even though it is a good tournament, the Mascoutah Tourney is hardly the meet the South Holiday tourney is. West waltzed through the field easily two weeks ago, with hardly a test.

Both North and South tuned up for the tournament with easy victories. North's Steelers demolished Bethalto (Civic Memorial) 56-3 and Mount Vernon 54-6 over the weekend.

West, Mo. 50-13.

Good night! What a good night

BREESE — Guess what? The Quad Cities had three teams entered in holiday basketball tournament action yesterday.

And guess what else? All three won! Now, most people wouldn't find something like that too outstanding, but one of the schools in particular found it very outstanding. Granite City North.

The Steelers, behind 16 points from Mike Robertson, 12 by Mike York and 11 each from Dennis Page and Keith Burton, won their first game of the season and in the process sent the Breese Mater Dei tournament's Number Three Seed down to the consolation bracket last night with a 64-61 victory.

North was ahead 20-10 at the end of the first quarter, by one at halftime, and by three (the eventual margin of victory) at the end of the third quarter.

But that's not all. In the Columbia-Freeburg Holiday Tournament, two quad Cities Class A (small school) teams whose names have become synonymous with basketball notched victories.

Madison, the number one Class A team in the Press-Record Coaches Poll, and the Number One Seed at Columbia, demolished Red Bud 95-58 and nary broke a sweat in the process.

Despite Madison Coach Larry Graham's feelings about poor defensive play on his team's part, the Trojans looked very impressive.

Then came Venice's game at Columbia. The Red Devils looked good for only about six minutes the entire game against the host Columbia Eagles — but that was enough to come away with a narrow 68-64 first-round victory.

Venice played in spurts and needed a heroic effort from all-state candidate forward Donald Gardner, who despite a protective elastic belt worn because of a recent auto accident, scored 23 points and blocked crucial Columbia shot in the final moments of play to help seal the victory.

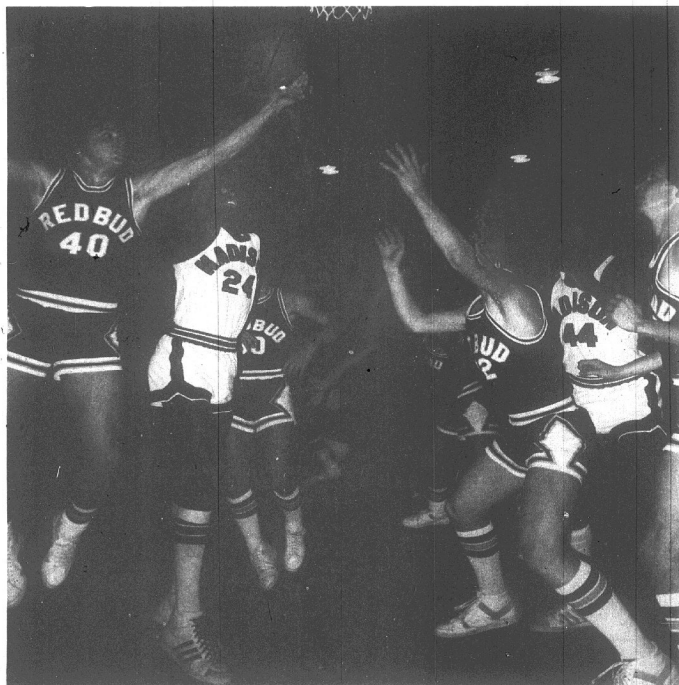

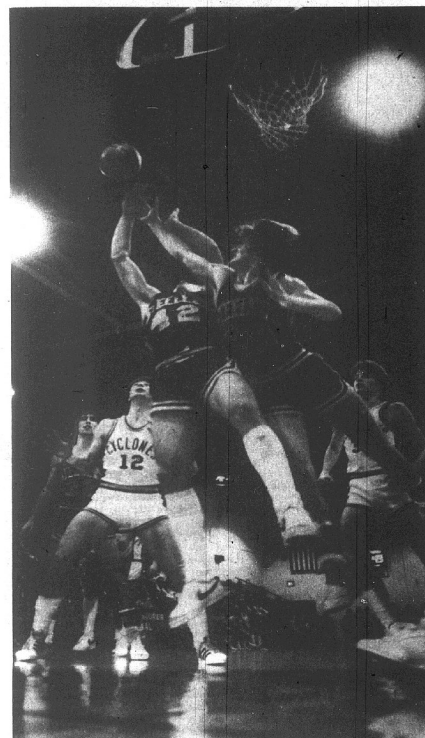

It was a good night, Wednesday. But it was just the beginning. There's more. Much more.

Today, each of the three teams continues action at Breese and at Columbia, while Granite City South, the Number One Seed, began action this afternoon at the Wood River Christmas Tournament against Civic Memorial of Bethalto.

And basketball isn't the only sport in town. Hardly.

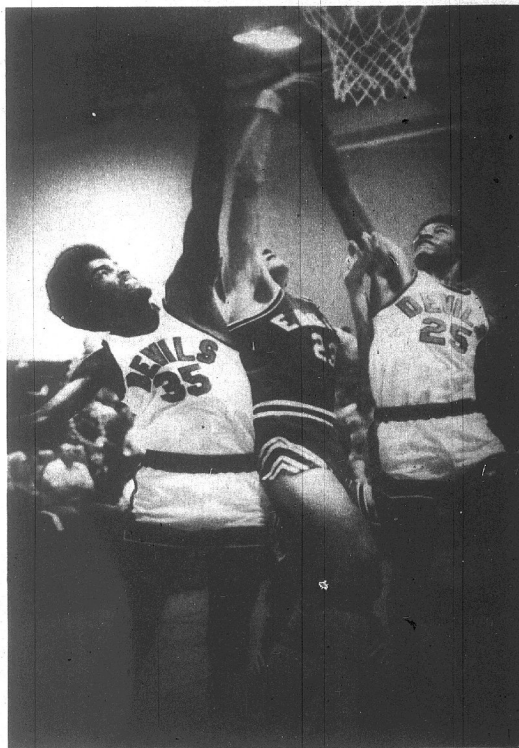

The 19th annual Granite City South Holiday Wrestling Tournament got underway with first round bouts and will continue through Friday night.

So you say there's nothing to do around here during the Christmas holiday season? Well good night!

outcome was no longer in
question, to simply let the
Springfield Griffin Cyclones
wind down the final ticks left
on the clock.
Then when the buzzer
finally sounded, everyone
was up.

The celebration was
sincere, yet subdued. Like
something done now that
should have happened before.
"We played with a lot of
intensity," the Eagles' coach
said after his team had gathered
in the lockerroom. "This
may not have been the most
intense game we've played,
but any time you win its
good. And obviously this is
the best we've played."

The Steelers, who now are
1-5, suffered some rough
treatment at the hands of
some opponents this year,
but now the Steelers hope
that will end.

"This should get us
going," North's Mike
Roberts said. "The
Cyclones game was about
as low as you can go, but now
we should be all right in the
tournament and the rest of
the way."

"We came in with the
objective of playing in four
games," Ohlendorf said.
"Now tomorrow we'll face a
tough Assumption team."

In order to play in those
four games, the Steelers will
have to knock off either
Assumption or someone else
along the way.

only other first place vote.

Devils

(Continued from Page 9)

would snap out of its haze.
It did for a while, but
The Red Devils out-
scored Columbia in the
second quarter and
managed to pull within
five points at halftime, 33-
28. In fact, the Devils
went ahead 28-27 with two
minutes remaining in the
second quarter. But the
Eagles scored six straight
points to take the halftime
lead.

Whatever Perkins said
to his team in the locker
room at halftime worked
— for a while.
At the beginning of the
third period, Venice
scored two straight
baskets on shots by
Archie Gardner and
Kevin Roberts to narrow
the gap to 33-32 seconds
into the quarter. But
Columbia came right
back and scored two
straight baskets to tie the
score.

Columbia started the
fourth period the same
way Venice had started
the third — by scoring two
straight baskets to tie the
score. But Venice
managed to sustain a six
point lead most of the
period before Columbia
performed it to two points
on a drive by 5'11" guard
Grant Matthews with 37
seconds left that made the
score 66-64. That set up
Gardner's heroics.

After a Venice turn-
over, he slapped the
Eagles' attempted in-
bounds pass off the leg of
a Columbia player, giving
Venice the ball. But the
Devils committed another
turnover and were
forced to try and
score. They did — or at
least Gardner did.
As the seconds ticked
down, Gardner hit two free
throws to give the victory
and give the Red Devils a
3-4 record and a ticket to
the quarterfinals.

"You've got to give
Columbia credit," said
Perkins. "They did a heck
of a job moving the ball
and they were playing at
home."

"But we showed we are
able to overcome a poor
game and come back to
win a close game."

Two-class girls' meet set

BLOOMINGTON

Competition in the first two
class Girls State Basketball
Tournament series con-
ducted by the Illinois High
School Association (IHSA)
gets under way at the
Regional level March 10 in
both Class AA (large school)
and Class AA (small school).
The girls series — only in its
fourth year of existence —
concludes the weekend of
March 27, 29 at the Assembly
Hall, Champaign, with a
combined State Final
Tournament.

Both Granite City North
and South girls teams will
participate in the Cahokia
and Rich Hill North
Regional. Other schools
entered in that meet will be
Cahokia, Collinsville, East
St. Louis Lincoln and East
St. Louis Senior. The winner
of that tournament will
advance to the Granite City
South Sectional, March 17, 18
and 20, along with winners
from Edwardsville,
Jacksonville Senior and

Springfield. From there, the
winner will go to the East St.
Louis Supersectional Game,
March 24 and from there to
the State Finals.

Madison's girls team will
play in the East St. Louis
Assumption Regional
Tournament in the Class A
(small schools) Series.
Others in that tournament
will be Alton Marquette,
Dupu and East St. Louis
Assumption. The winner of
that tournament will go on to
the Staunton Sectional,
March 17, 18 and 20. That
winner will advance to the
Carlinville Supersectional
March 24.

A total of 697 downstate,
suburban and non-Chicago
Public League schools have
entered the series at the
Regional level. There will be
352 competing for the Class A
title and 256 for the Class AA
crown. In addition, 64 teams
in the Chicago Public League
will battle in the city's
qualifying tournament for a

birth in the Class AA State
Final. Grand total number of
schools competing in 1980 is
671. Membership in the IHSA
totals 829, of which 36 schools
enroll boys only. Last year a
total of 580 schools outside
the Chicago Public League
competed in the single-class
series, which was won by
Skokie (Niles West). In 1977,
a total of 478 schools entered
the first statewide series and
in 1978 the number was 546.
Schools with enrollments
of 750 or less will compete in
the Class A series, while
schools with enrollments of
751 or more (and all those in
the Chicago Public League)
compete in the Class AA
series.

There will be 64 Class A
and 56 Class AA Regionals
conducted March 10-11 and
13. Regional winners ad-
vance to 16 Class A and 14
Class AA correlated Sec-
tionals, which will be played
March 17-18 and 20. The
Sectional winners will meet

in 8 Class A and 7 Class AA
Super-Sectionals, sched-
uled for Monday, March 24.
Super-Sectional winners
advance to the combined
State Final Tournament.
Class A quarterfinal games
in the State Final Tourna-
ment are scheduled for
Thursday, March 27, with
semifinals set for Friday
night, March 28. The Small
school, third place and
championship games are
scheduled for Saturday
afternoon, March 29. The
Class AA quarterfinal games
will be played Friday
morning and afternoon,
March 28. Semifinals are set
for Saturday morning with
the third place and title
games scheduled for
Saturday night, March 29.

Pairings for the Sectionals
and the matchup of Super-
Sectional winners for the
quarterfinals in the
respective State Final
Tournaments will be made
by blind draw in the IHSA

Office, Tuesday, Jan. 8.
Rating meetings for pur-
poses of seeding the teams in
the Regionals will be con-
ducted between Jan. 28 and
Feb. 4. The pairings for the
Regionals will be made in
the IHSA Office and an-
nounced shortly after Feb. 4.
Ticket prices for the 1980
State Final Tournament
have been revised. Season
tickets for either the Class A
or Class AA State Final are
priced at \$4 each. Tickets
for Class A games will be
honored only for Class A
sessions, while tickets for the
Class AA games will be
honored only for the Class
AA sessions.

In the Class A series, there
will be 48 Regionals in-
volving 6 teams and 16 in-
volving 4 teams. In the Class
AA series, there will be 15
Regionals involving 6 teams
and 41 involving 4 teams. All
Sectionals will be four-team
tournaments.

North

(Continued from Page 9)

North built a 10-point ad-
vantage that carried it
through the slump of the
second quarter.

Despite being outsize by
the Cyclones front court,
which contained a pair of 6-5
defenders — Jamie Thomas
and Rich Hall — North
consistently was able to
penetrate and fast break the
Cyclones.

In fact, with the exception
of the second period, the
Steelers controlled the

basket from both ends on the
court.
Considering the way North
has been man-handled inside
by some opponents this
season, the difference was
striking.

"You have to remember,"
Ohlendorf said, "This wasn't
an Edwardsville or Collins-
ville we were playing here.
There inside game wasn't as
strong, that's one thing.
The other thing was we
were looking inside tonight.
After the Collinsville game

(where North lost 84-47) we
had a meeting and we
wanted to look inside more.
We were inside-conscious."

The Steelers must have
been concentrating on
something more than
penetrating though.
On defense, the Steelers
came at the Cyclones from
the start with a running,
pressing zone that forced
Griffin mistakes.

Again, however, the
second quarter was the
exception.
"We wanted to push our
speed," Ohlendorf said, "We
thought we were in better
shape than they were. We
didn't necessarily want to
fast break them, but we
thought we had a better
faster game than them."

Both teams used a press
throughout the game, but
North's was more effective.
The Steelers forced three
turnovers in the first
quarter, and intended or not,

they were breaking for the
basket.
"We expected them to do
pretty much what they did,"
said Griffin coach Bill
Fleischli referring to North's
running game.

"We just didn't match it. I
don't know if it was the long
trip down or if it was an off
night or what, but we usually
can run with anyone."

After the Cyclones all but
evened the game before the
half, they pretty much did
stay with the Steelers.

In the third quarter, the
Cyclones outshot the Steelers
7-5 from the field, but North
pulled ahead 33-30 by the end
of the quarter by virtue of the
six-for-seven free throw
performance.

That may have been the
most important statistic of
the game for the Steelers.
In the opening minutes of
the final quarter, the
Steelers managed to turn the
miniature lead into about a

five-point bulge, and then
they were able to go into the
delay game.

"We usually average
about 80 points a game,"
Fleischli said. "We outscored
them from the field. They
hurt us from the free throw
line. We had some key
turnovers that we should
have converted, but we
didn't."

Although North blew some
chances in the final minutes,
it didn't hurt nearly as much.
The difference was they
were ahead.

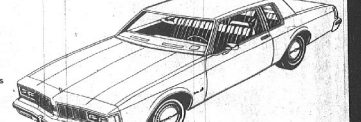

It's a feeling that would be
easy to get used to.

Sheri Lynn Goetz and Dennis Kebbel are wed

Miss Sheri Lynn Goetz and Dennis Alan Kebbel exchanged wedding vows, Nov. 24, in an evening ceremony at Grace Lutheran Church, River Forest, Ill.

Officials were the Rev. Dr. Dean Lucking, pastor of the church, and Dr. Merle Radke. The latter is a professor of English at Concordia College who gave the homily.

Tall tapers in branched candelabra illuminated the sanctuary and floral arrangements in autumn colors adorned the altar for the 7 p.m. double ring service.

Parents of the bridal couple are Colonel and Mrs. Jerald L. Goetz, of Herndon, Va., Mr. and Mrs. William Kebbel, 710 Lillian, Collinsville, and Mrs. Jean Wallace of Granite City.

Pre-service music was Bach selections, Concerto in G Major, March from the Klavierbuch of Anna Magdalena, Sleepers, Wake, and Rhythms by B. Vaughn Williams, provided by friends playing three violins, French horn, harpsichord, oboe, bass viol, cello and organ. Twelve college friends sang in the choir.

Other music included "Jesu, Joy of Man's Desiring," "Canon in D," "Now Thank We All Our God," "The Lord is the Sun and Shield," "Beautiful Savior," "In Thee is Gladness," and "Suite No. II from Water Music, Presto." Organist Paul Bouman was accompanied by Mrs. Lois Yapp, Gary Cleland, Miss Krista Sadtis, Miss Margaret Busse, Miss Jennifer Busse, Miss Cindy Waldron, Miss Emily Axilrod and Miss Diane Harger.

Choir members were Miss Lori Borg, Kevin Crow, Miss Diane Goring, Miss Kristi Gunderson, Jim Hafner, Dan Kowert, Mrs. Kim Preuss, Miss Krista Sadtis, Mark Schulz, Mrs. Betty Schulz, Bob Senninger, Miss Frances Sims.

For her wedding the former Miss Goetz selected a formal length white organza over taffeta gown fashioned with a fitted bodice of delicate lace embellished with seed pearls, a V-neckline and collar with bell sleeves.

The semi-full skirt fell softly into a cathedral length train. She wore a melody length veil of bridal illusion and she carried a colonial bouquet of silk orchids interspersed with trailing ivy and silk ribbon with love knots.

Maid of honor Miss Debra Ann Goetz, a sister of the bride, and bridesmaids, Miss Leticia Joy Kebbel, Miss Debra Lee Kebbel, Mrs. Karen Jean Massey, sisters of the groom, and Miss

Jennifer Rae Goetz, another sister of the bride, were gownned alike.

Their old fashioned style dresses were the new semi-floor length in a burnt orange and apricot shade in a mat silk fabric.

Each attendant held a brass candle holder with hurricane glass lantern encircled with dried and silk flowers and baby's breath, and wore a matching floral hairpiece.

Miss Liana Goetz and Darrell L. Goetz, a sister and brother of the bride, served as bearer of the cana wedding candle and cross bearer, respectively.

The groom chose his brother, Gary W. Kebbel, as best man. Serving as groomsmen and ushers were Wayne Morris, Rick Breault, Philip Kershner, classmates, and Roger Massey, a brother-in-law of the groom.

Guests were received by the newly married Mr. and Mrs. Kebbel at a reception held at the Plentywood Farm, Bensenville, Ill. The rehearsal dinner was hosted at the Konecne Community Center at Concordia College.

For her daughter's wedding, Mrs. Ann Goetz, chose an olive and avocado green organza floor length gown and wore a cluster of silk camillias on the waist.

Mrs. Dianne Kebbel was attired in an avocado green silk full length dress featuring a ruffled collar, complemented with a gardenia.

Mrs. Jean Wallace selected a formal length gown of aqua green organza designed with a sleeve capelet. She wore a gardenia.

The couple went to Orlando, Fla., and surrounding area for their wedding trip.

The bride attended Concordia College in River Forest, Ill., and majored in special work and was involved in work with the Lutheran Child and Family Services in Illinois. She plans to continue her studies in Orlando, Fla.

Her husband graduated from Concordia College, River Forest, and has a major in English and physical education with a minor in Theology. He will be teaching at the Lutheran High School in Orlando, Fla., where the couple will be at home after Jan. 6.

Out of town guests included Mrs. Mary Kast, the bride's maternal great-grandmother, Mr. and Mrs. Leonard Gorham, maternal grandparents of the bride, all from Alexandria, Va.

Mrs. Anna Kebbel, maternal grandmother of the groom, and Oscar Kebbel, and Karen Massey, sisters of the groom, and Miss

MR. AND MRS. DENNIS KEBBEL.

They were united in marriage on Nov. 24 at Grace Lutheran Church, River Forest, Ill. Formerly Miss Sheri Lynn Goetz, the bride is a daughter of Colonel and Mrs. Jerald L. Goetz, Herndon, Va. The groom is a son of Mr. and Mrs. William Kebbel of Collinsville, and Mrs. Jean Wallace of Granite City.

Kenya visit by sailor in 7th Fleet

Navy Machinist's Mate and Class Jerry L. Zessinger, son of Jo Ann Hoch of 2416 Madison Ave., Granite City, has visited Mombasa, Kenya.

He is a crewmember aboard the frigate U.S.S. Stein. His ship is homeported in San Diego and currently is operating as a unit of the U.S. 7th Fleet in the Indian Ocean.

He and his shipmates visited Mombasa during a five-day port call. For the remainder of the cruise, the Stein is scheduled to participate in training exercises with other 7th Fleet units and with ships of allied nations.

Additional port visits are scheduled in African and Middle Eastern countries. The Stein is 438-foot long "Knox" class frigate with a crew of 283. Equipped with guns, missiles and rockets, she can operate independently or as part of a naval task force. She is also outfitted with a landing platform and normally carries a light helicopter for long-range detection of attack on submarines.

A 1979 graduate of Center City Community College, San Diego, Zessinger joined the Navy in April 1976.

8,000 CANNED GOODS FOR SALVATION ARMY

Fairmount Park has announced that 8,000 canned food items were donated for the four-night period of Dec. 18 through Dec. 21. The promotion entitled any person who brought a canned food item to free admission to either the clubhouse or grandstand.

The 8,000 cans were given to the Salvation Army's annual Christmas drive. Nearly 6,000 racing fans participated in bringing the canned goods and several food companies which supply the race track also donated many cases of canned goods.

VOTER REGISTRATION AT NATIONAL STORE

Madison County residents who wish to vote in the March 18 primary election may register at National Food Store, Nameoki Road and Madison Avenue, Saturday from noon to 5 p.m.

Additional special registration centers will be held throughout the Quad-City area between now and Feb. 19, the final day to register for the primary. Additional registration sites will be announced in the Press-Record.

POPULAR FIGURE for the past few weeks among children has been, of course, Santa Claus. Santa visited the annual Madison Mothers' Club childrens party last week. The children were

happily engaged in games when the famous visitor from the North Pole arrived and the young people quickly flocked around Santa.

HILLS TERRACE CLUB CHRISTMAS PARTY

The Hills Terrace Birthday Club met at the home of Arlene Hickman for its Christmas party. Prizes in games went to Florence Penrod, Wanda Ogden and Judy Eaton.

An exchange of gifts was held and others present included Juanita Barnes, Marie Berger, Opal Davis, Alma Davis and Jeri Scheib. The January meeting will be with Juanita Barnes.

CHRISTMAS FAMILY NIGHT AT CHURCH

The Mitchell Presbyterian Church held "family night" with a pot luck supper and a program of music by the church school children. The Rainbow and the Star, was performed by members of

the Youth Fellowship Group. During the supper hour, "Happy Birthday" was sang to Mrs. Iona Uhlman, who was celebrating her 83rd birthday. She was presented with a birthday cake with candles.

SECOND SON BORN

Mr. and Mrs. Nelson Berra of St. Louis are announcing the birth of their second son at St. John Mercy Hospital on Dec. 3, weighing six pounds, one ounce. He has been named Charles Steven.

He has a brother, Nathaniel, Mrs. Berra is the former Maureen Cockrell, formerly of 157 Voight Place. Maternal grandparents are Mr. and Mrs. Fred Cockrell of Voight Place.

WEBSTER SCHOOL HELPS. Students from Webster's sixth grade class lead a drive for funds to aid the Cambodian Relief Fund of the American Red Cross and the local Salvation Army. From the left are Jack Mulach, representing the Tri-City Red Cross, Dave Matchett and Karen Sykes of the sixth grade, Salvation Army Capt. Elmer Trapp and Casey Krakowiecki, sixth grade teacher.

Students aid the starving

The sixth grade class taught by Casey Krakowiecki at Webster School has made a contribution of \$100 to the Cambodian Relief Fund of the American Red Cross and a gift of \$100 to the Salvation Army.

Under Krakowiecki's supervision the children sponsored an auction at the school.

Toys, games and various household items donated by Webster students were sold. "It was an encouraging and heartening experience to see these students, who are far from affluent, sharing their toys and money to help those less fortunate," the teacher commented.

"An amazing total of \$200 was raised. The class spent time studying Cambodia and discussing the problems of the refugees. The picture of the starving people seemed to make quite an impression on them."

"Homemade posters pointed out the contrast in the enormous bounty of America, compared to the extreme poverty of the refugees," Krakowiecki said.

90 at YMCA Seniors' dinner

Senior Citizens of the Tri-City Area YMCA met last week at the "Y" for their traditional Christmas dinner and program.

A catered meal was served to 90 members.

The Rev. Morris Anderson of Grace Baptist Church gave the invocation and read two short passages from the Bible.

Entertainment included a medley of seasonal music by the Seniors' Kitchen Band. The musicians also accompanied Marge Hall in several numbers.

Granite City Attorney Amerik Kachigian sang two

Christmas hymns and Norma Mendoza sang yuletide carols and led those present in a sing-a-long.

Gifts were exchanged and prizes were awarded to: Ann Veloff, Barbara Hahn, Mildred Moss, Catherine Hinkley, Filomena Gruber, Elizabeth Malincheff, Jed Jacobs, Art Lindner, Myra Grote, Albert Misselhorn, Martin Schulte, Rose Mary Breyer, Olga Tierney, Thelma James, Evelyn Davis and Mrs. Hall.

Gifts for the prizewinners were donated by Irwin Chapel For Funerals, Ferd's Flowers and F. W. Woolworth Co.

Melvin Robertson, 57, dies

Melvin Phillip Robertson Jr., 57, of Fort Lauderdale, Fla., formerly of Granite City, died at 11 a.m. Sunday, Dec. 23, at the Miami General Baptist Hospital.

Plan to acquire printing company

Post Corporation and Winnebago Corporation have announced they have signed a letter of intent looking toward acquisition of Winnebago by Post. The letter calls for it to be completed by March 14.

Price and terms were not revealed. Winnebago, located in Menasha, Wis., is a commercial printing company specializing in high quality, four-color process printing. Post is an Appleton-headquartered newspaper, broadcasting and printing firm.

Post said Maynard Rierson, founder and principal stockholder of Winnebago, will remain as president of the firm under Post's ownership. Post plans no personnel or operational changes, the announcement said.

"Winnebago has earned a fine reputation for quality and service in the high-quality color printing field," said Post President V. I. Minahan. "Our goal will be to preserve and expand that reputation."

Winnebago, founded by Rierson in 1951, currently has annual sales of about \$4 million.

Post owns and operates newspapers, broadcast stations and commercial printing in nine states.

ZONING HEARING SET

The Madison County Zoning Board of Appeals will conduct an on-site public hearing at 8013 Fairway, State Park Place, at 9:10 a.m. Thursday, Jan. 3, where Paul Crook and Anna Martinez are requesting a special use permit to place a mobile home. The property is zoned R-4 for single-family residential use and is in Nameoki Township. If the hearing is in the inclement, the hearing will be held at the same time Jan. 7.

SUES SKATE CENTER

A lawsuit seeking in excess of \$15,000 has been filed in Madison County Circuit Court on behalf of Ronald E. Gibson II against the Stardust Skate Center in Pontoon Beach. It alleges that on Sept. 13, Gibson, a child, was bumped by an employee of the rink while skating and fell, injuring his face. Gibson's father filed the suit.

Joseph Trotts dies at 63

Joseph Stanley Trotts, 63, of 1015 Greenwood St., a lifelong resident of Madison, died Tuesday at John Cochran Veterans' Hospital, St. Louis.

He had been ill for one year. He was hospitalized several times and at the time of his death on one day.

Mr. Trotts was a retired construction worker.

Survivors include one brother, Edward Trotts, and three sisters, Mrs. Stanley (Bernice) Komosa, Mrs. Jean Byrd and Mrs. Julia Goclan, all of Madison. Funeral arrangements are given in the obituary column.

GC MAN ARRESTED
Harry L. White, 29, of 2926 Morgan St., was arrested Monday on a battery complaint signed by his wife, Wendy White, 1748 Poplar St. She alleged he came to her home, argued with her, struck her face with a fist and then choked her. A relative called police to the scene.

CAR WRECKED?
Dempsey-Adams Auto Body
Call 451-9511

Teenager is assaulted

A 16-year-old Granite City boy was forced at gunpoint into a car at Nameoki Road and Washington Avenue at 12:30 a.m. Wednesday and was assaulted by the driver, who was described as about 25 to 30 years old, police were told after the attack.

The victim said he was walking home from his girlfriend's house when a white car stopped on Washington Avenue beside him and the driver asked for directions.

When the teen approached the auto, the driver displayed a blue-steel revolver with a long barrel and stated, "If you move, I'll blow your head off. Get in the car," police were told.

The victim said he complied and the man drove southwest on Washington

Avenue. The teen asked the man if he wanted money and he said that was not what he wanted. It was related.

He drove to the front parking lot of the Church of Christ, 29th Street and Washington Avenue, where he forced the victim to submit to his assault and to perform other acts, police were told. Then the victim was told he could get out of the car, he related.

The assailant was about 6 feet tall, weighing about 170 pounds and having a mustache and very curly brown hair. He drove a 1978 to 1979 white two-door mid-sized car with a white vinyl interior.

The teenager was taken by his parents for hospital treatment.

Senior dance at Chouteau

An invitation is being issued to all senior citizens in the Quad-City area to attend a free dance and party being hosted by Chouteau Township tonight in the township hall.

"Light refreshments and live music will highlight the evening and all senior citizens from throughout the area are being invited," Supervisor Walter "Dick" Sparks of Chouteau Township commented.

The event will begin at 7 p.m. in the township's new hall and will conclude about 11 p.m. An orchestra is being provided by the Musicians' Union.

The township hall is located north of Interstate 270 and west of Route 203 north (Old Alton Road), behind the Midwest Motel. It may be reached by taking Maryville Road to Old Alton

Road and turning north. After passing under I-270, signs for the Midwest Motel will mark the left turn to the hall.

It also may be reached by taking I-270 to the Route 203 north exit and then following the signs to the Midwest Motel.

VAN IS LOOTED
A combination radio and tape player was stolen from the van of Randolph Werner, 2736 Iowa St., parked in front of his home early this week. A window had been pried to gain entry. Police noted there had been several van and truck burglaries in the neighborhood in that way. An investigation is under way.

RAILROAD CHARGED

A complaint was signed early this week against the Missouri Pacific Railroad for allegedly blocking the crossing on 25th Street for more than 15 minutes Sunday morning. A policeman alleged that messages to the crew to move the train were unsuccessful, until crew members saw the officer writing down the engine numbers, and then they moved the train.

24 more Quad-Cityans become emergency medical technicians

Twenty-nine communities from seven counties plus Scott Air Force Base were represented by 78 emergency medical technician (EMT) candidates who sat for the Illinois certification exam at the Belleville Memorial Hospital Emergency Medical Services Center this month.

The exam completed a cycle in which 125 candidates received training at courses in Breese, Granite City, Millstadt, Trenton, Belleville Memorial, and the Belleville Area College campus.

EMTs are trained in the emergency care and transportation of the critically ill or injured through an eight-hour (clock hour) course developed by the American Academy of Orthopaedic Surgeons.

The course is an international standard for ambulance personnel, and also many public safety personnel in firefighting, police, rescue, and mine safety.

The latest group included 24 Quad-Cityans.

Region 4 (the counties of Bond, Clinton, Madison, Monroe, Randolph, St. Clair and Washington) has over 1,500 certified EMTs.

Most are active in developing or providing emergency prehospital care.

An estimated 60 percent, for example, provide their skills as volunteers.

Thirty-three EMTs took an additional 540 hours of training to certify as Illinois paramedics. Some now provide paramedic service out of the Memorial Hospital EMS (emergency medical services) Center as volunteers.

Twenty-five more will begin training as paramedics on Jan. 28.

When the City of Millstadt called for volunteers last summer to operate a city volunteer ambulance service, 58 people signed up. Twenty-two Millstadt EMTs tested and will be operating the city's new ambulance beginning New Year's Day.

The EMT course provides a balance between book and hands-on learning. It is now offered by all junior colleges serving region 4.

The course includes cardiopulmonary resuscitation (CPR), rescue of victims trapped in automobiles, treatment for bleeding, fractures, and shock, and 10 hours of time in area hospital emergency rooms.

Certification is prerequisite to paramedic training and also for the National Registry of EMT examination. This exam will be administered to 66 of the new State certified EMTs at the EMS Center tomorrow.

John R. Santoro, regional EMS coordinator for the Illinois Department of Public Health, Division of Emergency Medical Services and Highway Safety, estimates that in five years, 99 out of 120 who passed the exam will still be active in EMS activities.

According to Santoro, seven will go on to become paramedics, seven will be nurses, 13 will be CPR instructors, and 40 will remain in or join a public safety or allied health profession.

Most will be contributing time as volunteers for prehospital emergency care, he forecasts.

As an example, Santoro said that half of the region's 390 volunteers who teach CPR to the public through the Illinois Heart Association are EMTs. Over 4,000 region 4 people received the basic four-hour "heart saver" CPR course in the first eleven months of 1979.

Many of the new EMTs will be staffing eight brand new ambulances which were recently approved for partial funding by the Illinois Department of Transportation for operation in Freeburg, Lebanon, Millstadt, Mascoutah, Okawville, O'Fallon (two vehicles) and Trenton.

The newly certified EMTs who successfully completed the exam include:

GRANITE CITY: Margaret Amisch, Howard E. Black, Nancy J. Bowles, Kevin R. Braundmeier, Mary J. Brooks, Audrey Cheung, Carol Farnsworth, Richard W. Ferris, Debra K. Ficker, James E. Hall, Clarence Hand, Patricia Hutchins, Karmel L. Johnson, Cynthia A. Keller, Karen Kasuge, William St. Peters, Joani Schellingberger and Nedwin J. Tapp Jr.

MADISON: Greg Bargiel, Mitchell, Eugene Copper, Bert Jones, Bob Lamb, Osburn and Jerry Richard son.

Type B flu vaccine for aged, ill

William Kempin, acting director of the Illinois Department of Public Health, has reported on outbreak of influenza type B in the state.

Type B, a respiratory disease, can cause fever, cough, muscle aches and sore throat.

Although tests have confirmed the disease in only one person so far, the high rates of absenteeism in schools in Morgan, Cass, Scott and Greene Counties have been attributed to the influenza.

Kempin has urged that all persons over 65 and those with chronic illnesses such as diabetes or diseases of the heart, lungs or kidneys be given the influenza vaccine.

Jail meal cost squeeze

By JUDY TAPLIN
Budget limitations for food service at the new Madison County jail have sheriff's department officials busy cooking up some alternate plans.

Awarding of a bid for a food service contract at the new jail (which is set to open in the first few months of 1980) was on the agenda at last week's County Board meeting but was not brought to the floor for action.

The reason it wasn't, according to a member of the buildings committee, had to do with the feeling among a number of board members that the county hadn't provided a modern jail kitchen just to have food catered.

Ewin Knezevich, director of administration for the sheriff's department, says

the food would not have been catered under the proposed service contract.

"A professional company would use our facilities, purchasing the food. When it came out the kitchen door, the county would pay for it on a flat rate, on a one-year contract," he said.

Knezevich agrees with the board members that the new kitchen is worthy of the efforts of any chef.

He describes it as a "super kitchen," an exemplary kitchen, with steam convection ovens and other equipment.

The basic problem, he said, is that the sheriff's department has been told it has to stay within its \$111,000 food budget.

Ironically, the food service contract would cost the

county less than would cooking by an in-house staff, according to Knezevich's figures.

In the past year, when 76,000 meals were served, the cost per meal started out at \$1.67 the first few months but was later shaved enough to put the average cost per meal in 1979 at \$1.40.

These figures were based on an average daily "attendance" of 70 persons.

The new jail will hold 96 persons, and we have to assume a total of 105,000 meals for the year," he said, 105,000 multiplied by \$1.33 the bid favored by the sheriff's department out of two received for the contracted food service) would total \$139,650.

Either way Knezevich says, the \$111,000 budget is exceeded. Food costs were up 15 percent during the past year, and Knezevich notes that they are expected to go up again by that same amount in the coming year.

The sheriff's department can't resort to the basic peanut butter sandwich as a remedy.

"If we don't feed them right, we have disciplinary problems and lawsuits. We have to have a nutritionally balanced meal," he said.

One solution to the dilemma may be agricultural commodities from the U.S. government.

To qualify, however, the jail would have to meet certain conditions, including a work release program, something the county has not had—at least not in recent history.

Also, Knezevich said, his department hasn't totally abandoned the idea of a contracted food service—if it can find one to meet the \$111,000 food budget.

"So, our options are still open," Knezevich concluded.

Talk-A-Thon nets \$8,298

By VALERIE EVENEDEN of the Press-Record
The annual "CB Talk-A-Thon" to aid the March of Dimes netted a total of \$8,298 in donations, it has been announced by Barbara Downing, project coordinator.

Area citizens band radio clubs joined forces as sponsor of the event, which covered a continuous 24-hour period in November.

A short time after the talk-a-thon, an awards dinner was held at the VFW Club in Collinsville, when recognition was accorded individual clubs whose efforts resulted in raising the most funds for the charitable endeavor.

All proceeds were contributed to the Metro East Chapter of the National March of Dimes Foundation to help continue research work in the area of birth defects and to support services provided by the chapter, Mrs. Downing explained.

Jerseyville Area CB's raised the largest amount of money in the talk-a-thon, collecting \$2,361, it was announced.

The runnerup group was the Pottsville CB club which raised \$1,015 in funds raised.

The Trouble Shooters of Wood River secured third place, finishing in third place; and fourth position went to the Bucket Brigade CB Club of Edwardsville with \$1,015 in funds raised.

At the time of the awards banquet, the Channel 3 CB's of Granite City finished the race for funds in fifth place.

Since the deadline date for club competition, the Channel 3 group has brought its total contributions to \$1,046, Mrs. Downing announced.

The additional funds were too late to change the standings in the contest, but not too late to benefit those being helped by the March of Dimes, the coordinator noted.

During the 24 hours of the talk-a-thon, CB club members talked over the airwaves, using different channels in various communities seeking support for the March of Dimes.

Pledges were then made by the listeners who called central locations where the March of Dimes volunteers were stationed for the duration of the talk-a-thon, Mrs. Downing explained.

Although the overall amount was down about \$600 from the total pledges received in the 1978 talk-a-thon, the organizers considered this year's event "highly successful" and expressed appreciation to all those who participated.

The coordinator said roadblocks were not used this time, as in previous years, to solicit funds from the general public and a couple of clubs which were active last year have since been disbanded.

Recruit state police, investigation agents

A four-month, statewide campaign to recruit applicants for positions as sworn officers has been launched by the Illinois Department of Law Enforcement and State Law Enforcement Merit Board.

Recruitment efforts from Dec. 20 to April 20, 1980, are designed to fill 160 positions with the best qualified candidates in the state, said Dan K. Webb.

The director noted that a majority of the openings are for Division of State Police troopers, but that some applicants may qualify for direct assignment as special agents of the Division of Criminal Investigation.

"While careers as department sworn officers are challenging and demanding, they offer many personal rewards for those interested in the law enforcement sector of public service," Webb said.

According to Les Geddes, chairman of the Merit Board, applicants must be between 21 and 36 years of age with a high school diploma or is equivalent. With a two-year degree in law enforcement, the minimum age is 20.

Other requirements include: 20-20 vision (correctible) with no color blindness and 100 percent depth perception; good health and physical fitness; U.S. citizenship; no felony violations; possession of a valid driver license; and willingness to accept assignment anywhere in the state.

Geddes explains that the selection process involves an applicant orientation,

physical ability test, written examination, oral interview, background investigation and medical examination.

"Those successfully completing the process," Geddes said, "will be considered for 19-week classes at the Department of Law Enforcement Training Academy."

The first class of 40 cadets is scheduled for November 1980, with three classes slated in 1981.

During training, cadets earn \$1,285 per month. Upon graduation, the monthly salary is increased to \$1,267.

To maintain compliance with the department's affirmative action guidelines, Geddes said that 50 percent of those hired will be white males, 43 percent will be white females, and seven percent will be women, both white and minority.

Applications and additional information about qualifications and the selection process can be obtained from: DLE Merit Board, 3087 Parkview Parkway, Springfield, Ill. 62703.

The nearest State Police headquarters, DLE Recruitment Office, 160 N. LaSalle St., Room 327, Chicago, Ill. 60601.

Or the DLE Bureau of Personnel, 200 Armory Building, Springfield, Ill. 62706. Telephone inquiries should be directed to the Merit Board (217-782-6300), DLE Bureau of Personnel (217-782-2854) or nearest State Police headquarters.

Sentence 6 in circuit court

Six young men have been sentenced this month in Madison County Circuit Court in connection with a burglary and an attempted burglary at Corner Liquor Store, 2526 Nameoki Road, both occurring in August.

Donald Dawson, 18, of the 2300 block of Nameoki Road, was sentenced to serve three years in prison after pleading guilty to burglarizing the store Aug. 9.

Circuit Judge Philip J. Rarick pronounced sentence.

Gary Caughron, 18, of the 2800 block of Madison Avenue, was sentenced by Judge Rarick to serve two years of probation and to pay a \$200 fine after Caughron pleaded guilty to the burglary.

Judge Rarick also sentenced Caughron to serve one year of probation and to pay a \$200 fine in connection with a theft from a car Sept. 4 in the parking lot of Hoppe's Tavern, 2807 Edwardsville Road. An initial charge of burglary was reduced to a misdemeanor count of theft, according to court records.

He allegedly was one of two young men who removed a wristwatch, keys, wallet, cash, a trophy and other items from a man sleeping in his car on the Hoppe's lot.

Four young men were fined \$100 each and were released on one year of probation after pleading guilty to an attempted burglary of Corner Liquor Store Aug. 28.

Associate Judge John W. Day pronounced sentence on Eddie Hotz, 22, of the 2300 block of Nameoki Road, Ernest Edwards, 25, of the 2200 block of Nameoki Road, and Mark Copeland, 22, of Division Street, Pontoon Beach.

Circuit Judge Victor J. Moselle sentenced Charles Freiner, 24, of the 2200 block of Alexander Ave., to serve one year of probation and to pay a \$100 fine in connection with the same attempted burglary.

In Memoriam 33

IN MEMORY of my beloved parents, WILLIAM HOGGER and EFFIE HOGGER, December 28, 1963 and July 2, 1976. Sadly missed by Daughter Mary. 33 12 27

IN LOVING MEMORY of ROSALEE ELMORE, who passed away Dec. 27, 1965. They say time heals all sorrow and helps us to forget. But time so far has only proved how much we miss you yet. Gone and forgotten by some you may be. But Mom, in our memory you will always be. Sadly missed by Son, Daughter and Families. 33 12 27

IN LOVING MEMORY of LEO ZELLEN, Jr., December 26, 1976 at age 19. Like fallen leaves, time passes by. But love and memories never die. Thoughts move back to happy days. Life moves on, but memories stay. Sadly missed by Mom, Dad, Sister, Brothers, Brother-in-Law and Nephew. 33 12 27

Public Notice 34

In the Circuit Court
Third Judicial Circuit
Madison County, Illinois
THE COUNTY OF MADISON, ILLINOIS,
Plaintiff,)
vs.)
Kenneth G. Elliott, Janet K. Elliott, Myco Investments, and UNKNOWN OWNERS,)
Defendants(s))

Publication Notice
Requisite affidavit for publication having been filed for the Third Judicial Circuit, Madison County, Illinois, at the courthouse in the City of Edwardsville, Madison County, Illinois, on or before the 28th day of January, 1980, a default will be entered against you at any time after said date and a Judgment for Dissolution of Marriage and for other relief, that summons was duly issued out of the Court against you as provided by said laws and this cause is still pending.

Now, therefore, unless you, PATRICIA MARIE McALLISTER, the said Respondent, file your answer to the Petition for Dissolution of Marriage in said cause or otherwise make your appearance therein in said Circuit Court for the Third Judicial Circuit, Madison County, Illinois, at the courthouse in the City of Edwardsville, Madison County, Illinois, on or before the 28th day of January, 1980, a default will be entered against you at any time after said date and a Judgment for Dissolution of Marriage and for other relief, that summons was duly issued out of the Court against you as provided by said laws and this cause is still pending.

WILSON and NANCY JILL WILSON" in the Circuit Court of Madison County, Third Judicial Circuit, Edwardsville, Illinois, wherein HENRY H. WILSON is Petitioner and NANCY JILL WILSON is Respondent, which is for No. 79-D-1997 and is for a Dissolution of Marriage. Respondent, NANCY J

Schools

(Continued from Page 1)

A copy of the enabling resolutions of the School District and Town Board and the agreement signed by the School District, the School Board, the Booster Organization and the Town Board are attached hereto as Exhibits No. 2, 3 and 4.

The Town Board also has by agreement with the local School District and its booster organizations provided bleachers in an existing gymnasium to permit the high school to hold home basketball games in the gymnasium, owned and maintained by the School District and Town Board and the agreement entered into are attached hereto as Exhibits No. 5, 6 and 7.

The facilities were provided pursuant to requests for bid published by the Town. Copies of the requests for bid are also attached hereto as Exhibits 8 and 9.

The School District permits extra scholastic use of the facilities by residents of the Town, pursuant to School Board policy, a copy of which is attached as Exhibit No. 10.

Various organizations and the local park district also have facilities pursuant to an agreement to use each others recreational facilities.

The use of the facilities during the year 1979 is shown on the attached Exhibit No. 11.

It is the position of the Town that the expenditure of Revenue Sharing Funds for the projects is authorized by the following Statutes of the State of Illinois.

Illinois Revised Statutes, Chapter 127, Sections 741-748.

Section 742. Definitions.

For the purpose of this Act: (1) The term "public agency" shall mean any unit of local government as defined in the Illinois Constitution of 1970 of any school district, the State of Illinois, any agency of the state government or the United States.

Section 743. Intergovernmental Agreements.

Any power or powers, privileges or authority exercised or which may be exercised by a public agency of this state may be exercised and enjoyed jointly with any other public agency of this state and jointly with any public agency of any other state or of the United States to the extent that the law of such other state or of the United States do not prohibit joint exercise or enjoyment.

Section 745. Any one or more public agencies may contract with any one or more other public agencies to perform any governmental service, activity or undertaking which any of the public agencies entering into the contract is authorized by law to perform, provided that such contract be authorized by the governing body of each party to the contract.

Such contract shall set forth fully the purposes, powers, privileges, and responsibilities of the contracting parties.

Illinois Revised Statutes, Chapter 122, Section 16-7.

Any school district organized and existing under the general law or by special charter having a population of not more than 500,000 inhabitants may acquire real estate by gift, donation, devise, purchase or otherwise and hold it for the purpose of establishing playgrounds, recreation grounds and athletic fields, and may equip, operate and maintain such playgrounds, recreation grounds, and athletic fields. Under the above cited statutes the agreement entered into by the Town of the City of Granite City is authorized by the State of Illinois.

Pursuant to the statute one or more governmental entities may enter into an agreement exercising powers and providing services which one or more of the entities may not be authorized by itself to exercise or perform, provided that any one of the agreeing entities possesses the powers and can perform the services.

A copy of Opinion Number S-1067 of the attorney general of the State of Illinois is attached hereto as Exhibit 12. A copy of SIMAPC Technical Bulletin, interpreting the above stated statute, is attached hereto as Exhibit 13.

The Town also relies upon the following statutes which cumulatively grant the authority to the Town to expend the Revenue Sharing Funds for recreational facilities to be placed upon School District facilities.

Illinois Revised Statutes, Chapter 129, Section 126-10.

The Board of Town Auditors may enter into any cooperative agreement or contract with any other governmental entity, or non-profit corporation, or non-profit community service association with respect to the expenditure of township funds, or funds made available to the township under the federal State and Local Fiscal Assistance Act of 1972, to provide any of the following services to the residents of the township:

1. Ordinary and necessary maintenance and operating expenses for:
 - (a) Public safety (including law enforcement, fire protection, and building code enforcement).
 - (b) Environmental protection (including sewage disposal, sanitation, and pollution abatement).
 - (c) Public transportation, (including transit systems and streets and roads).
 - (d) Health.
 - (e) Recreation.
 - (f) Libraries, and
 - (g) Social services for the poor and aged.

2. Ordinary and necessary capital expenditures authorized by law. In order to be eligible to receive funds from the township under this section, any private not-for-profit corporation or community service association shall have been in existence at least one year prior to the receipt of the funds.

Those township supervisors, who are also members of a county board, shall not vote on questions before the township board of auditors or the county board which relate to agreements or contracts between the township and the county pursuant to provisions in this Section.

Illinois Revised Statutes, Chapter 130, Section 38.

Every town shall have corporate capacity to exercise the power granted thereto, or necessarily implied, and no others. It shall have Power —

1. To sue and be sued.
2. To acquire by purchase, gift, or devise, and to hold property, both real and personal, for the use of its inhabitants, and again to sell and convey the same.

3. To make all such contracts as may be necessary in the exercise of the power of the town.

4. To expend or to contract for the expenditure of any federal funds made available to the town by law for any purpose for which taxes imposed upon township property or property within the township may be expended. The town shall have power to acquire, singly or jointly with a municipality or municipalities, by gift, purchase, or otherwise, jointly, to improve or to arrange for the improvement of such land for industrial purposes and to donate and convey such land, or interest in land, so acquired and so improved to the Illinois Industrial Development Authority.

The town shall have power to expend federal funds provided under the State and Local Fiscal Assistance Act of 1972 for the construction of swimming pools and other recreational facilities.

There have not been any court decisions interpreting the above statute which restrict or interpret the application of the statutes to our factual situation.

A reading of the statutes themselves would substantiate an opinion that the Town of the City of Granite City can enter into an agreement to expend Revenue Sharing Funds for the purchase of lights and bleachers for use on School District No. 9 facilities.

The legislature intent is certainly evident to permit such expenditures in deference of the opinion rendered by the complainant.

A copy of a letter to the state's attorney of Madison County, Ill., seeking an opinion from its office and the attorney general of the State of Illinois is attached as Exhibit 14.

Salvation Army drive at \$27,000

The Salvation Army Tree of Lights stands today at \$27,000, still \$3,000 short of reaching the 1979 Christmas appeal goal of \$30,000.

Persons wishing to contribute to the fund may mail donations to:

Salvation Army Tree of Lights, Box 538, Granite City, Ill. 62040, or Earl Doizauer, Tree of Lights Chairman, c/o First National

Bank, P.O. Box Y, Granite City, Ill. 62040.

A total of 528 baskets of canned goods and staples was distributed Dec. 21 and Dec. 22. Recipients also were presented gift certificates redeemable for chickens.

The number of eligible applicants was slightly higher this year than last.

Parents receiving holiday assistance also visited the

Salvation Army Toy Shop to select toys for their children.

In the past three weeks, Salvation Army volunteers visited the sick and elderly at area nursing homes and hospitals, called upon hospitalized servicemen at Scott Air Force Base Hospital near Belleville, and provided Christmas meals for senior citizens, among other activities geared to the yuletide season.

Man with gun scares family

A man armed with a handgun threatened Rick and Martha Wallace of Terminal Avenue and their children at 2:40 p.m. Tuesday at Route 162 and Maryville Road. Wallace said he was turning left from Route 162 onto Maryville Road when another car turned from the outside lane beside Wallace's car, nearly colliding with it.

The driver of the other car then got out, walked to Wallace and pointed a handgun at him and his family. He then left northbound in a white over red Pontiac with a woman and three or four children in the car.

Firemen promoted Burglary on Center St.

Two Granite City firemen were promoted by the Granite City Council Wednesday night, and one probationary fireman was hired, as the result of the resignation of Fire Captain George Nenninger, which was effective Dec. 15.

On the recommendation of the Board of Fire and Police Commissioners, Engineer Bill Seago was promoted to

the rank of captain and Pipeman Kenneth Druhe was promoted to engineer, both effective Jan. 1. The new probationary fireman is Daniel Worthen, 2230 Lincoln Ave., who will begin his duties Jan. 1.

WONK'S
DRIVE-IN LAUNDRY
IT'S QUICKER!

Burglars broke into the home of Edward Elliott, 2681 Center St., between 4:30 p.m. Friday, Dec. 21, and 1:15 p.m. Tuesday and stole a motion picture projector and screen, a collection of 20 knives, jewelry including a diamond necklace and several men's necklaces, change and coins, including money from children's piggy banks, old magazines, blow cases and a metal locked box containing \$625 worth of U.S. Savings Bonds, silver coins and a knife.

Also taken were several wrapped Christmas gifts under the yule tree, including a knife, a shirt and chocolate candy. The house was ransacked. A doorknob was broken from a door, but entry apparently was unsuccessful through the door. A storm window then was forced from a window and the glass in the window was broken near the lock to gain entry, police said.

Continue studying why judge wasn't prosecuted

The discretion normally exercised by a police officer is a factor to be considered in determining whether there was any wrongdoing involved in the alleged disappearance of a traffic ticket in Caseyville.

That is the opinion of St. Clair County State's Attorney Clyde Kuehn, who is investigating the matter. "There's always discretion in what a police officer does," Kuehn said.

Caseyville police officer Ron Tamburello has said he stopped and arrested John Karns of Belleville in September 1978, but that tickets disappeared and Karns was not prosecuted.

Karns is an Illinois appellate court judge in this district.

Tamburello said, however, that he did not stop the Karns tickets from being processed.

He added that he does not

believe a ticket should be changed unless the officer that wrote it is consulted.

He said he had not been aware that the Karns tickets had not been processed until just recently. Tamburello said he writes many tickets, and often loses track of them (in the judicial process) unless he is called to testify.

Acting Chief Darrell Raymer said he took details of the case to Kuehn Friday, along with a similar case which he said occurred last April.

Kuehn said the ticket was never received at the courthouse. There is no evidence yet to show that influence was used to prevent the ticket from being processed through the courts, he said.

"Can you classify any ticket not filed as a ticket fixed?" Kuehn said.

Tamburello said he ticketed Karns for improper lane usage and driving under the influence of alcohol.

Most tickets given but then not filed are dropped because of discretion used by the police officer, Kuehn said.

He said that even after a ticket is filed at the courthouse, an officer's discretion sometimes results in a ticket being dropped.

This can happen when the case comes to court and the officer has changed his mind and recommends not prosecuting, Kuehn said.

Don Paulik, who was Caseyville's police chief when the Karns incident took place, said he is not clear on the details of the case. "I'm researching my files, he said. Paulik declined to comment further on the Karns case.

However, he did discuss Caseyville Police Department procedures. He agreed with Kuehn that police of-

ficers use their discretion in the filing of tickets.

Normally, if a person complains about a ticket, the officer is usually called in and the matter is discussed, Paulik said.

If the ticket is dropped, the officer has agreed to it, although the chief could order the ticket dropped against the wishes of the officer, Paulik said.

The Karns tickets were alleged to have disappeared from a locked box in the police station.

Representatives from the circuit clerk's office came in about twice a week to pick up the tickets. The circuit clerk, police chief and sergeant all have keys to the lock.

However, there have been other cases in which papers have disappeared from that box, Paulik said.

A dispatcher was fired earlier this year for allegedly removing tickets from the box through the slot, he said.

Kuehn said that if the investigation reveals probable cause that Karns had committed the violations, then the matter will be turned back to the village attorney for possible prosecution.

The alleged incident would have been a violation of village ordinances, not state laws, Kuehn said.

Whether or not there is probable cause to believe the violations took place will affect any investigation into the handling of the tickets, Kuehn said.

NECK IS INJURED
Janice Reinhart, 36, of 2115 Collinsville Ave., Madison, was treated early this week at St. Elizabeth Medical Center after being involved in an auto accident. She suffered pain to neck. X-rays were taken and she was released.

VICTORY PLAYERS. They will appear here on Monday evening, Jan. 7. The music and drama team from Watertown, Wis., will perform

at Central Baptist Church, 3910 Highway 111, Pontoon Beach.

Mrs. Susan Horton dies

Mrs. Susan J. (Chandl) Horton, 38, of 40 Storey Circle Drive, Glen Carbon, formerly of Granite City, was pronounced dead at home at 7:10 a.m. Tuesday by William Sternberg, Madison County deputy coroner.

She was found in the bathroom of her home by a friend who called the authorities. There will be an inquest to determine the cause of death.

Mrs. Horton was born in Moses Lake, Wash., and had lived in the Granite City area

almost all her life. She attended schools here and graduated from Granite City High School.

She was a member of the Catholic faith.

Survivors include a daughter, Susan Horton, at home; her parents, Mr. and Mrs. Joe (Carol) Chandl of Jacksonville, Fla.; one brother, Michael Chandl, Sidney, Ill., and a sister, Mrs. Jerry (Patricia) Simmons of Peoria, Ill.

Funeral arrangements have been made in the obituary column.

FACT: A CHIMNEY FIRE DOES NOT LEAVE A CHIMNEY CLEAN!

Chimney fires happen only when there is enough creosote and soot buildup to fuel a fire. Once a chimney fire is over, the ash left from the chimney fire may have expanded to take up more of the flue area than the creosote and soot did originally. Ash often falls to the chimney base blocking the area. If you have had a chimney fire, take the time to have your chimney cleaned and inspected before a second fire occurs.

Actors bring Christmas stories to life

GRANITE CITY SOUTH student actors have kept busy this month bringing Christmas season stories to life for various audiences.

Among the most appreciative were youngsters who were given a Christmas party by the Women's Division of the Tri-Cities Area Chamber of Commerce.

Mrs. Wayne (Jeanette) Scannell is president of the Women's Division and Mrs. Dan (Beverly) Parney was chairman of this year's party for area children (who are not related to Women's Division members). In the top left picture, Barbara Franich (standing) reads "The Night Before Christmas" while other members of the

GCHS South Acting Club carry out the actions being described.

At the top right, a novelty sketch simulates foreboding figures of (left to right) Donna Headrick and Janet Fox.

In the scene at the lower left, Mrs. Paul (Billie) Schuler (far left) introduces Ron Pennell (standing at the center), South High

speech department head, who introduced the students participating.

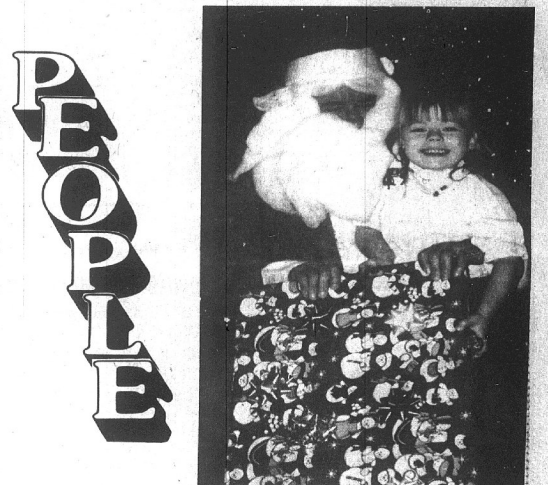

The lower right photograph shows one of the party guests happily receiving a holiday gift from Santa Claus.

Mrs. Robert (Valerie) Stevens led singing of Christmas carols and Mrs. Robert (Tina) Thomas served as assistant chairman of the

party, which was attended by 29 children from all portions of the Quad-City area.

South students presenting the program, in addition to those already named, were Beth Callis, Mary Cavins, Cindy Barker, Darla Boyce, Judy Evans, Gail Hudson, Liz Galt, Kim DeGonia, Theresa Patton, Mike Schmidt and Belinda Youngkin.

(Press-Record Photos)

'79 highlights at SIUE include Wilkins selection

SIUE ADMINISTRATIVE CHANGES:

A new structure of governance for the Southern Illinois University system was approved by the Board of Trustees at its February meeting, creating the position of chancellor as the chief executive officer of the system, with the presidents of the Carbondale and Edwardsville campuses reporting directly to the chancellor.

Kenneth A. Shaw, who had served as president of SIUE-Edwardsville since January, 1977, was appointed chancellor, effective Sept. 15, and James Brown, former general secretary and acting chancellor of the SIUE System, was named vice chancellor.

Gov. James Thompson reappointed Ivan A. Elliott Jr. to the SIUE Board and appointed Dr. David P. Rendleman of Carbondale as a member, filling the position formerly held by Margaret Blackshere. Rendleman later resigned because of what he felt was a conflict of interest, and Dr. George T. Wilkins Jr. of Granite City was appointed to the vacant position.

Earl Lazerson, vice president and provost of SIUE, was named acting president of the Edwardsville campus to serve until a new president is appointed. Earl Beard, assistant vice president for academic personnel administration, became acting vice president and provost. Other major appointments include: Charles R. McDonald as director of

University Police, Donald Shandler as director of the Office of Continuing Education, Robert G. Bolesta as director of student activities, Dan Doelger as dean of students, Stephen Sperotto as University Center program coordinator, Reese Nafel as director of University Graphics and Publications, E. Leon Daniel as director of Data Processing.

Suzanne Jacobitti as dean of the School of Social Sciences, and David C. Huntley as director of the Office of Cultural Arts and University Museums.

APPROVED BY THE SIUE BOARD OF TRUSTEES:

The SIUE Board awarded contracts for the acquisition of capital equipment for the Environmental Resources Training Center (ERTC). Funding for the purchase was derived from a \$500,000 grant received from the Illinois Environmental Protection Agency in 1977. A site east and slightly north of the Bubble Gym was recommended for the development of the multi-purpose physical education, recreation and athletic building. Gov. Thompson released \$190,000 in March for the first phase of planning.

In August, the governor released an additional \$152,000 in planning funds, supporting the project through the initial schematic design phase. University officials are hopeful that funds for construction will be appropriated next year. Project approval for renovations to the fourth

floor at the East St. Louis Resident Center was granted in July. Included in the improvements are air conditioning and remodeling approximately one-half of the space for a satellite dental clinic for the School of Dental Medicine.

The Experiment in Higher Education at the East St. Louis Center was phased out as a result of legislative demands to eliminate duplication of effort in East St. Louis.

Plans were announced to establish a research program for remediation and developmental learning at the Center, development of upper division capstone and graduate programs, and the expansion of cultural arts, research and public service programs at the Center.

New program requests in the Resource Allocation and Management Program

(RAMP) planning document for Fiscal Year 1981 approved by the Board for submission to the Illinois Board of Higher Education include:

—Funding for the Certificate Program in Periodontology; —Program approval for the Master of Arts-Master of Science in Ethnic and Cultural Studies; and

—Supplemental state funding for the Bachelor of Science in Dental Hygiene Program.

In other action, the board approved the establishment of University College, which

consolidates several University units that provide academic support services to students. The units assigned to the College include: Academic Advisement, Academic Resource Center, Adult Student Services, U.S. Air Force ROTC, Colloquium, Deans College, General Studies, Open University, Veterans Upward Bound, and the Bachelor of Liberal Studies degree program. Carol Keene was appointed dean of University College. She will also continue as dean of the School of Humanities.

Installation of lighting at the soccer and softball fields was authorized. The Board also approved a budget of \$129,000 to be funded from athletic fees to construct six new tennis courts.

RESEARCH:

During the past fiscal year, the university received a total of \$7,746,677 in extramural support for its programs, an increase of \$1,471,142 or 23.4 percent over FY 1978. \$2,117,585 or 37.6 percent over FY 1977, and \$3,518,493 or 83.2 percent over FY 1976. The University received 127 awards in FY 1979. Of the awards, 28 were in the area of research, 64 for training, 29 for student support, and 6 for institutional support.

MAJOR EVENTS:

The university hosted several major conferences during the year, including a three-day conference recognizing the 25th anniversary of the Supreme Court desegregation decision in the Brown vs. Board of

Education case, an industrial cogeneration of electricity conference, Very Special Arts Festival for area students with handicapping conditions, a three-day conference on Latin American studies and the media, a public forum on the changing face of local public finance, an ornamental ironwork symposium and exhibition, and an exposition of the University's various art collections.

An anthropological teaching museum opened on the campus in the fall, placing on display ceremonial art and relics from prehistoric societies of the Americas and of other countries as well.

In September, the university was named one of 10 education institutions selected to participate in an academic program evaluation project sponsored by the American Association of State Colleges and Universities. The project will assist institutions in determining how well they teach basic skills.

In October, bus service connected the Edwardsville campus with downtown St. Louis on a regular basis for the first time. Through an agreement with the Bi-State Development Agency, six bus runs are made daily between St. Louis and the campus with stops in East St. Louis, Collinsville, Maryville, and Edwardsville.

Chancellor Shaw was one of three chief administrators at Edwardsville, which began intercollegiate

athletics in 1967-68, won two national titles in the past 12 months, repeating as NCAA Division II tennis champions at Little Rock, Ark., by defeating the Tigers of Clemson University for the title, and also defeating the Tigers of Clemson University for the NCAA Division I (big schools) soccer championship at Tampa, Fla.

The campus mall was formally dedicated as the Delyte W. Morris Quadrangle, with ceremonies honoring the former president of SIUE.

The second group of 20 Presidential Scholars was named. Selected on the basis of their previous academic work and special talents and abilities, the scholars receive monetary assistance, special academic status, and individualized education opportunities.

Prominent visitors and groups to the campus during the year included: the Carol Conway Dance Company of New York; singer Phoebe Snow; the Singleton Palmer Dixieland Band; Jerrold Otley, director of the Mormon Tabernacle Choir; Benjamin Hooks, executive director of the National Association for the Advancement of Colored People; and Shere Hite, female sexuality researcher and author; in addition to the artists brought to the campus by the Mississippi River Festival.

SPORTS HIGHLIGHTS:

Most schools in America would settle for a single national championship in 11 years or even longer. Southern Illinois University at Edwardsville, which began intercollegiate

athletics in 1967-68, won two national titles in the past 12 months, repeating as NCAA Division II tennis champions at Little Rock, Ark., by defeating the Tigers of Clemson University for the title, and also defeating the Tigers of Clemson University for the NCAA Division I (big schools) soccer championship at Tampa, Fla.

Coach Kent DeMars' tennis squad made it two straight by repeating as Division II champion and then came within inches of winning the NCAA Division I crown at Athens, Ga., with what amounted to a two-man team, Arjun Fernando and Juan Farrow.

Starting three years ago, the Cougar tennis team finished second in the nation as Farrow won his first of two national singles championships. The next year at San Diego, Farrow repeated as the Cougars won the national crown. This past May in Arkansas, Farrow was beaten by his teammate, Fernando.

Then at Athens, Ga., Farrow advanced to the singles semis before bowing, and Fernando lost in the quarterfinals. They teamed in doubles before losing in the semis.

SOCCER:

Coach Bob Guelker's SIUE soccer team, after a shaky start, (6-2-2), pulled itself together and finished the season by winning the whole bundle in the NCAA Division I championship tournament at Tempe.

While the Cougar kickers defeated the Clemson Tigers, 3-2, in the title game, it marked the 20 straight contest without a loss.

The SIUE soccer team, since it had won the first NCAA Division II (small colleges) championship ever held in the U.S. in 1972, thus becomes the first major American college team to win championships in two divisions.

Don Ebert, who was the No. 1 choice in the professional soccer draft the day after the Cougars won the national crown, set a new SIUE single season scoring mark of 32 points on 22 goals and 10 assists. He was picked by the New York Cosmos and thus gives up one year remaining of collegiate eligibility.

WOMEN'S SPORTS:

A first for SIUE women's athletic team was posted this past year: SIUE's new coach, Bob Meyers, directed his women's tennis team to its first Illinois State championship.

Facing the women Cougars was their outstanding doubles team, Lillian Almeida and Pat Ziegenfuss, who swept through all opposition at the state tourney.

The Cougars finished the tourney with 16 points, mostly posted by Almeida in the singles.

FIELD HOCKEY:

The SIUE women's field hockey team also advanced to a shot at a national championship when it was picked to contend for the crown in New Jersey in the tourney hosted by Princeton U.

But, despite the scoring efforts of Pat Alemond of Highland and assists by Amy Frey, the women Cougars lost their first two games in the meet. They finished the season with an 11-12-4 record.

Coping

Our Children

Teach speech with love

By WILLARD
ABRAHAM, Ph.D.

Q. I have a great-granddaughter who is 2½ years old. About a month ago she started to stutter when she begins to say something. She seems to be afraid of her mother who is very strict with her, looking at her mother before she answers anyone.

There seems to be little chance for her mother to change because we've suggested that she show her love and talk more softly to the little girl. It does no good.

Maybe she'll listen to you. A. It is hard to imagine a mother these days who doesn't recognize the importance of showing love, speaking softly and really listening to a young child. It's in these early years that sound parent-child relationships are started, a factor that many parents of adolescents discover just too late.

At this point the little girl's stuttering is probably not really "stuttering" although it may sound like it. In time could develop into a tough case of it.

The warmth that smart parents show their children by a touching-smiling-speaking-listening-loving routine is so much more fun for both than the rigid-demanding model. Although we all have different parent personalities, commonsense can sometimes be a good foundation for parenthood.

Not long ago I wrote an article called "Help Your Children Talk Better" which I'll be glad to share with you. Just write and ask for it, send a stamp along, and it'll be on its way to you free.

I hope it'll help turn this mother on to what she may be missing. Q. My future wife and I are involved in some discussions about having children — and we reached a kind of stalemate.

We both want to have them, but our difference is over the factors of time and money. We agree that a child demands a lot of care, and that's where our argument starts. She insists it's not worth it. "We live a short life," she says, "and there is so much to see and do that a child cannot enjoy and actually interferes with."

Although she gives lip service to her desire to have a family, somehow this difference of opinion worries me. I happen to think that children are worth it and that we have a happy childhood and family life to look back on to prove my point.

If you've guessed that her childhood wasn't a particularly happy time, you're right on target. It wasn't.

What can you suggest to help us resolve our differences? A. You seem to need some marriage counseling before rather than after you have the big step. What you've cited sounds like a basic difference, one that needs resolving before you are married.

Most parents feel that their children are worth every bit of time and money on them. The joy they can bring far outweighs any possible inconvenience.

However, parents who resent the involvement are sometimes the kind who develop child abuse tendencies, and we certainly need enough of them without adding other children to that list.

Through your church or synagogue, it finds you might get to a professionally qualified person who will listen to your dilemma and offer alternative possibilities for you.

Q. Our son has cerebral palsy, and we run into many

problem situations with which we have learned to cope. I imagine we've read just about everything which has been published on this subject.

However, you can help us out if you will please let your readers that all cerebral palsied children (and adults) are definitely not stupid. Some of them may have speech difficulties and problems in walking, but that does not necessarily mean that they are mentally retarded.

Our son is now 10 years old and happens to be the brightest child in his class. With some of his teachers my husband and I were really the teachers! They now understand that a person can be cerebral palsied and average or above in intelligence. They can be below average too, of course, but the fallacy of arbitrarily associating CP with low intelligence must go.

Your help will be appreciated.

A. Misconceptions related to handicapping conditions have a stubborn habit of hanging on, but we've made a lot of progress in recent years.

You've stated the case well, and I agree with you completely. Others should too.

Did You Know

Bad feet can cause bad heart

By PHYLLIS WEAVER

Did you know that people with painful foot problems run a greater risk of heart disease than people with normal healthy feet?

People with foot conditions tend not to walk or exercise more than necessary.

The heart is a muscle and needs to be exercised and oxygenated with an adequate supply of air, or it starts to lose strength to do its job. So in order to keep other parts of the body going, the heart becomes overloaded and stressed.

If you have a foot condition, you'd best try to clear it up or strengthen it with exercise. You'll have a better chance to avoid heart disease. People with diminished activity because of foot problems also do not have the resistance to illness as people with healthy feet.

How rich women relax

By CATE TUTTLE

Why do women go to the exclusive and expensive Golden Door health spa in Escondido, Calif.?

According to Annharriet Buck, the Door's director, "They want to be happier, they're ready for a change in their lives, ready to become more committed to themselves."

At the door women learn that part of healthy self-commitment means knowing how to relax. During a recent conversation with myself and guests of the Door, Ann discussed the very subject. She knows many of her guests are wealthy. They run charities or their own businesses and keep heavy social schedules. They need quick, effective stress relievers.

Ann says one of the most pertinent questions a woman can ask herself is, "What do I do to relax?" She says, "Relaxing is not a luxury, it's a necessity. If you don't find time to relax, your body will get sick. It's that simple. It will make you rest. Your body won't let you get too far out of balance."

In seeking stress balance, Ann suggests a watchful eye

over self-criticism. "Everyone goes over the negative things they do, saying, 'Why did I say that?' or 'How could I have done such a thing?' Balance doesn't mean you never criticize yourself, that's how you learn, it means spending 50 percent of your mental energy complimenting yourself."

Her method for accomplishing this self-acknowledgment sounds simple but is difficult for most people. "For 10 minutes every morning, sit down, and with closed eyes review every single good thing you did the day before. If at first you can only fill 30 seconds, then go to the day before that and the day before that. If you have to, go over your whole life, but fill that 10 minutes. Remember, stick only to the good things. If something negative sneaks in, say to yourself, 'OK, I'll deal with this in a minute, but not until my 10 minutes are up.'" Ann says, "If you do this, you'll start out the day feeling like you can do anything."

When Ann asked, "What if people tell you that you're so lucky, that you do and have so much, but you don't feel like you get too far out of balance?"

Ann replied, "Then ask yourself, 'Have I ever done

anything in my entire life that I did well? Start there. Build on that one thing."

Ann also suggests that every woman set aside a private space. "During the day you're constantly putting energy out, you need a chance, maybe only five minutes, to be alone and get energy coming in. So have your own room if you can, or just a chair that looks out on something that pleases you and let everyone know that when you sit in that chair or when you sit in that room, you want to be alone."

"In addition, each woman should learn her own individual 'stress point.' It could be at the back of your neck, or your stomach, or your forehead, wherever you hurt first when you get tense. After you find that spot, give yourself reminders to notice it. For example, every time you come to a stoplight or look at your watch, check that stress point. If it's tense, relax it by taking a deep breath, and while exhaling, send the breath to that point."

The final step is to discover what you're thinking or doing at the exact moment you start to feel tension. Women think it's the big things that cause stress, but usually it's the little things that build up, things you can change easily.

Mainly For Seniors

Pessimists should reread history

By JOHN T. WATTS

Dear John: This is going to be short and bitter, instead of short and sweet. The world is about to blow itself up. It's getting so you don't dare go out on the street after dark. Food, clothing, rent and gas are getting so high you can't afford to buy them.

I don't expect you to agree with me, but I want to get off steam. And I'm glad I'm over 75 and don't have too much time left. — A Real Pessimist.

Dear Pessimist: The experts say when we get older our memory fades. I guess that's your problem. You should refresh it by rereading some of the history that has occurred in the last 75 years.

There were those two world wars when millions of persons, civilians as well as military persons, were killed. And how about the Great Depression? It didn't feature any unemployment insurance, Social Security, Medicare, or anything of the kind.

This could go on and on. Look about you and compare. The "good old days" were good because we were young then and red-faced back on them through rose-colored glasses.

Dear John: I read your article, "Teen-agers bully the Elderly."

Whoever said it can't happen here? The senior citizen is becoming the oppressed minority. It almost makes one think that we are becoming the American boat people.

The lack of respect is appalling. We were the last payer giving a day's work for a day's pay, the producer everyone is looking for on today's market.

We now have the bully, skim, scam and con. Is this a reflection on where we are going? — D.D.J.

Dear D.D.J.: This seems to be the day for pessimistic thoughts. Senior citizens certainly should be aware of the dangers of exposing themselves to bullying by teen-agers or anyone else — and that's why we wrote that column.

Surprisingly, recent statistics show that more members of other segments of the population are the victims of strong-arm criminals.

The thing to remember is not to put yourself into a situation inviting muggers.

As to where we are going, we are going to clean up those undesirable elements — teen-ager or adult predator — but it is a long haul, which really has to start in the home.

When they start throwing parents in jail for the crimes of their children maybe we will be getting somewhere.

Dear John: Could you tell me if a widower who receives his wife's Social Security will still receive his wife's S.S. if he remarries?

What does the law now state? — H.K.

Dear H.K.: The newest Social Security handbook states:

"Section 416 D. Beginning January 1979, a widower's benefits will not terminate or be reduced upon remarriage after attaining age 60."

It is always safest, however, to check these things out with your local Social Security office.

The mystery mineral

By PHYLLIS WEAVER

Did you know that silicon, the mystery mineral, may prove to be a vital element in human nutrition?

Silicon must be in a form soluble enough to be distributed in body fluids before it can be used.

For centuries a medicinal herb known as "horsetails" was quite popular. Horsetail, known also as "scouring rush" was popular for scouring pewter. Common horsetail as a medicinal remedy was made into solution by boiling and straining portions of the plant.

This solution was said to improve health of eyes, heart, lungs and kidneys. It was considered diuretic, astringent and as a relief for dyspepsia. As the mystery mineral, horsetail can be toxic.

Doses of silicon are still used to treat headache, arthritis, skin problems, constipation, nervousness, and to promote healthy hair and nails. As the mystery mineral, horsetail can be toxic.

There are several possibilities to help you in your situation. There are drugs out which may help to supply more blood over a longer period of time than the

Ladies, Start Your Engines

Don't overlook your transmission

By SHIRLEY
MULDOWNEY

Q. How should I check the transmission fluid?

A. The transmission is one of the most overlooked areas of a car. We always think about checking the oil in the engine but most forget about the transmission.

When you check the oil level in the engine, the engine should be off. When you check the transmission oil, the engine should be running.

Read your owner's manual to see if your car should be in neutral or in gear with the emergency brake on.

Pull the dipstick — usually on the left side of the engine at the rear — wipe off the oil, replace the dipstick, pull it out again and

check the level. Markings are visible at the tip. If the level is to the "add" mark, fill to the "full" line with transmission oil. Never fill over the full mark and do not use motor oil. Use oil designated for transmission.

If the oil is dark brown or smells burnt, the fluid should be changed or checked by a mechanic. Manual transmissions should be checked while the car is on a hoist.

Q. With all the recent talk about automobile fires, what are the steps to avoid a fire?

A. In automobile racing the one danger that drivers fear the most is fire and we go to great lengths to prevent it. We all wear fire-retardant clothing and in

many areas of the sport crash-worthy fuel tanks are required.

Fires have virtually been eliminated in accidents at Indianapolis in the last few years because of fuel cells made by Goodyear and by sealing fuel lines.

For the passenger car, such fuel tanks are not feasible at this point but there is one piece of equipment that you should carry in your car — a fire extinguisher of a type that will combat both electrical and gasoline fires. It can be used to combat small fires under the hood or a cigarette-started fire in the interior of the car.

Don't attempt to battle a fire at the rear of the car, near the gasoline tank or one with gasoline spilled on the street. You may lose a car but that's better than losing a life.

If you have an accident, shut off the engine immediately and if gasoline is leaking, get away from the car. Let the police and firemen handle the situation.

If you smell gasoline around your car, have a mechanic inspect the car immediately. Fumes mean there is a leak and a leak can result in a fire.

Here's How

Q. Around the base of my apartment house, the stucco is flaking off. Where my husband patched it a couple of years ago, the stucco is firm. Where my son patched it, it is flaking and we can see the cement part of the building.

One repair company wanted to tear away all the stucco and put on a new screen and the whole bit is this really necessary? Could it not be repaired with concrete glue and hold with the same results my husband had? — Irene C.B.

A. Patching with stucco patching material and concrete glue and hold will not be too extensive. After patching, use a sealer before repainting.

After repainting, the application of a water seal, up to a height of about three feet, will help prevent further deterioration.

Also check the ground around your foundation to make sure there is drainage away from the building.

happened. What's the good of all the tests if you can't get that bad off and no one can tell?

A. This question illustrates that the best tests are not 100 percent accurate and that even bypass surgery doesn't guarantee that the graft will stay open or that the original disease will not continue to cause trouble.

Whenever a doctor tells you anything based on laboratory tests or even his own examinations, he is really saying that to the best of his knowledge or ability, that is what the situation is. Since he is human, he can be subject to mistakes in interpretation, and since the people who devise the tests and publish the reports about them are also subject to error and the tests themselves will stay open or that the original disease will not continue to cause trouble.

Check with your doctor about these possibilities and if he is not able to give you more advice, consider seeing another doctor.

Q. I had bypass surgery replacing three blood vessels in my heart about six years ago. This was done because I was having angina pretty regularly. One year ago I had a complete checkup including a treadmill stress test, and the doctor said I passed with flying colors. He said my heart was as good as anyone else's and I really was encouraged. Four weeks later, I ended up in intensive care with a full-blown heart attack. Couldn't the doctor tell that something was wrong four weeks prior to the attack?

Had another angiogram done which showed that all three of the grafts were blocked to some degree or another. How could I have completed the treadmill test with all that going on inside? I have been very depressed since this has

I have long ago stopped trying to predict for patients what will happen to them in the future. I have no way of knowing for sure what change in circumstances may occur to throw my predictions way off. The best we can hope to do is to estimate the probabilities and then stress to the patient that no one can tell with certainty what the future will bring. In a way, this is fortunate because there are just as many times when the doctor gives someone a bad prognosis and happily he turns out to be wrong.

The best bet is to not worry about the future but rather just meet the present circumstances as they occur.

Ask The Doctor

Pointers to angina

By WILLIAM J.
GOLDWAS, M.D.

Q. I can never have sex anymore with my husband. He is 67 and I am 58 years old. Every time we try, my chest starts to burn and my left jaw starts to hurt and both my arms ache and then I have to take a nitroglycerine tablet, but we can never finish the act.

I have told my doctor about the pain and I have had two electrocardiograms and they show normal but he has made no further test or even suggested any. I can't even walk to the barn or out to the lane to get the mail anymore and I love to walk. Can you help me or tell me what to do?

A. The symptoms you describe are typical of angina pectoris. The heart muscle is not getting enough blood so that under the stress of exertion, it cramps and the cramp is felt either in the middle of the chest or up in the jaw or neck or down the arms. The pain usually subsides quickly once the exertion is stopped or shortly after nitroglycerine is taken. The nitroglycerine helps the arteries supplying the blood to the heart muscle, to open up a bit more so that more blood and therefore more oxygen gets delivered to the muscle.

There are several possibilities to help you in your situation. There are drugs out which may help to supply more blood over a longer period of time than the

Garland, Gene Kelly

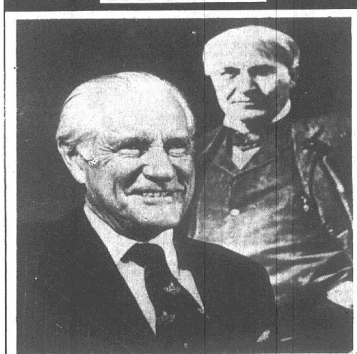

THURSDAY

Don Murray and Michele Lee star in "Knots Landing," a series exploring modern marriage, premiering Thursday, Dec. 27, on CBS. It continues the story of Gary and Valene Ewing (Ted Shackelford and Joan Van Ark) of "Dallas."

(Stations reserve the right to make last-minute changes.)

SATURDAY

Eric Sevareid narrates "Legacy of Genius: The Story of Thomas Alva Edison," Saturday, Dec. 29, on PBS. It's in honor of the 100th anniversary of Edison's greatest invention, the incandescent light bulb.

(Stations reserve the right to make last-minute changes.)

MONDAY

Eric Moran ("Happy Days") and John Schneider ("The Dukes of Hazzard") are co-hosts for a musical welcome to 1980, in "New Year's Rockin' Eve, 1980," Monday, Dec. 31, on ABC.

(Stations reserve the right to make last-minute changes.)

TUESDAY

The Harts find themselves on the run from the Mexican police and drug smugglers when their south-of-the-border boating holiday turns into a life and death race, on "Hart to Hart," Tuesday, Jan. 1, on ABC.

(Stations reserve the right to make last-minute changes.)

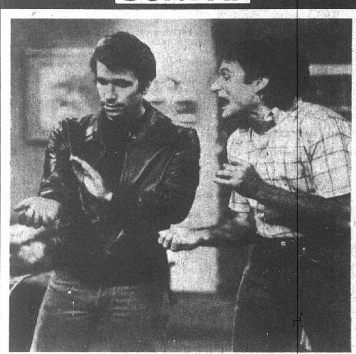

FRIDAY

Louis Mountbatten and Prince Charles were guests at the 1975 coronation of the King of Nepal. Mountbatten's impact on the global scene is traced in "Lord Mountbatten: A Man for the Century," Fridays on PBS.

(Stations reserve the right to make last-minute changes.)

SUNDAY

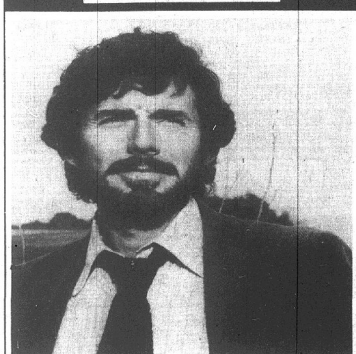

The Fonz has an enthusiastic pupil in Mork as he instructs him in the Earth custom of dating girls in "The Mork Hour Special," Sunday, Dec. 30, on ABC.

(Stations reserve the right to make last-minute changes.)

Natalie Cole, a three-time Grammy Award winner, hosts an elaborate disco party at the famed Copacabana in New York City, on "CBS' Happy New Year, America," Monday, Dec. 31.

WEDNESDAY

David Birney stars as a schoolteacher who organizes a farming community's battle to keep a power company from despoiling its land, in "Ohms," Wednesday, Jan. 2, on CBS.

(Stations reserve the right to make last-minute changes.)

Senator on river parkway council

State Sen. Sam M. Vadala, D-Edwardsville, has been appointed to the state's Mississippi River Parkway Commission, recently re-established by the General Assembly. Vadala was appointed by Senate President Philip J. Rock, D-Oak Park, and is the first member named to the re-established commission. Vadala's 56th District includes one of the more significant areas of the river, with the McAdams Highway, Tri-City Port Authority, Locks 26 and 27, refinery terminals and the Chain of Rocks Canal. The commission is responsible for improvement of the Great River Road as a commercial, cultural and scenic attraction. Illinois joins 10 other states and two Canadian provinces in supporting the National Mississippi River Parkway Commission. Funding for the Great River Road has been largely by Congressional appropriations through the U.S. Department of Transportation.

Off-campus group will meet Jan. 8

The Career Advisory Council of Granite City School District's Off-Campus Education Program will meet at 6:15 p.m. Tuesday, Jan. 8, at Charlie's Restaurant. A business meeting will follow the Dutch treat dinner. Topics on the agenda will include: Preparation for the annual spring banquet; changes in Cooperative Education guidelines; policy relating to student employees of business firms on strike. Current information on the Ketterer Center Project; a discussion of efforts toward employment of handicapped students; and introduction of new council members. Those unable to attend the dinner meeting are being asked to contact Donald R. Shaffner, coordinator of Off-Campus Education, at 877-1512 or 451-2666, Station 68.

FLAG DISPLAY URGED

In conjunction with President Jimmy Carter's call for Unity Day throughout the United States, Governor James R. Thompson last week signed a proclamation urging all Illinois residents to display the U.S. flag in honor of the hostages being held in Iran.

Citizens, elected boards key to education in '80s

By HAROLD P. SEAMON

School boards are taking a new look at themselves and those who elect them — a look that will spark some fundamental changes in Illinois public education in the 1980s. More and more boards view local citizens as consumers to whom their schools must be sold — rather than as shareholders in an enterprise run by professionals. This doesn't mean schools will launch gimmicky "ad campaigns" to gloss over the serious problems of education. Quite the opposite. School districts will be marketing themselves in the best sense of the term — by developing a product that public wants and so good the public will want to buy.

We hear a good deal about tight money these days, and certainly inflation and the uncertain energy situation strain our pocketbooks and our nerves. Yet figures show educators are not unwilling to spend money in these difficult times if they receive full value for what they spend.

Illinois school boards in the 1980s will apply this principle in governing the schools, recognizing there is a ready market for products and services that truly fill public needs. The coming decade will not be an easy one for education. There are problems to be faced and tough decisions to be made. The 1970s, those years of growing demands and shrinking resources, have made clear that nothing will be as easy as it appeared during the optimistic sixties.

Nonetheless, those public opinion polls showing a decline of public support for education will reverse themselves during the eighties. Illinois public school districts will enjoy the confidence and support of the public because they will have earned it.

I'm going to stick my neck out as this troubled decade draws to a close, and predict developments in three broad areas of education: teaching and learning, school management and funding. The predictions are optimistic, but they are realistic, based on present information and projections. Every one of them can happen, with vision and courage and dedicated effort from everyone with a stake in public education.

TEACHING AND LEARNING

Our schools exist to educate students. That's an obvious point, but one easily overlooked in the daily frenzy of financial and administrative problems.

School boards and administrators could stay in business without clear goals, and a whole self-help industry has grown up to teach individuals to use goals as a means of getting what they want. The process will serve school districts as well. Notice the stipulation that goals will be locally developed. That's important. One of the most disturbing trends of the past decades has been the increasing encroachment into local control of our school districts by bureaucrats and legislative bodies in Springfield and Washington.

Yet failures here are largely to blame for those other problems. If we can demonstrate that teachers are learning and students are learning, many other issues will fall into place. The question is, how shall we evaluate teacher performance and measure student achievement? Those simple-seeming questions are two of the most highly debated issues in education today. The easy answer — standardized, objective competency testing for students and teachers alike — probably is not the answer at all.

Standardized testing for students is a useful classroom tool, but it does not take into account the diversity of student background and ability. Testing measures only limited kinds of knowledge. Thus, test scores can be misused. A challenge in the 1980s will be to avoid the abuse of testing, such as placing the student in competition with some "magical" score rather than with his or her own performance.

Although many states have mandated minimal competency testing, Illinois has not. Instead, more districts will develop their own measurement systems to make sure no student is automatically shuffled through the system without learning to read or add. These programs will be designed to disclose student strengths and weakness and to help students reach their full potential — not to label students as "successes" or "failures."

The companion problem to student achievement is teacher performance. New ways must be found to hold teachers accountable for doing what they are hired to do, teach students. Again, this is difficult to evaluate. Delegates to the 1979 Illinois Association of School Boards conference recognized the problem and named a study committee to develop recommendations to improve teacher performance.

Locally-developed evaluation plans will guide boards in hiring and removing teachers and will provide a basis for accounting to the public for teacher performance.

SCHOOL MANAGEMENT

Exactly what is this school trying to accomplish? An increasing number of school boards will face this question in the 1980s and here is how they will answer: "We are working to meet the needs of our community. We know where we are going, and we will know when we get there."

School boards and administrators will be providing a greater sense of direction, guiding their districts toward quality-related goals determined by local boards sensitive to the needs and expectations of local citizens. No corporation could stay in business without clear goals, and a whole self-help industry has grown up to teach individuals to use goals as a means of getting what they want. The process will serve school districts as well.

Springfield and Washington.

Public opinion polls, however, continue to tell us people think their local school boards can do a better job than the state or federal government in running their schools. A 1978 Gallup poll, for instance, gave a 61 percent vote of confidence to local boards. During the eighties, citizens fed up with federal and state mandates that produce paperwork instead of education will insist upon increased powers for locally-elected boards. They also will become more actively involved themselves, working with board members to shape their schools.

At the state level, voters will keep a closer eye on the legislature, urging their representatives to vote down proposals that would diminish local control. At election time, they will examine legislators' voting records for undue bias in favor of narrow interest groups at the expense of the educational system.

At the federal level, the full effect of the newly-created Department of Education will not be felt for some time. But now, while that bureaucracy is in its infancy, is the time to ensure it will not be permitted to encroach upon local control of our schools. The Department will simplify things with the federal government by consolidating many programs now scattered throughout the bureaucracy.

FUNDING

The problem of paying for our schools, because of its immediacy and urgency, is often allowed to eclipse the more fundamental question of whether our system is working.

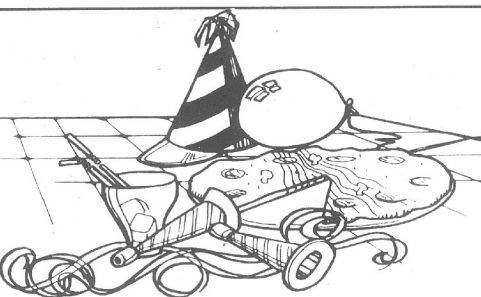

A good school system is expensive. That is inescapable. And education costs will continue to rise for the foreseeable future. Inflation alone will ensure that. The fact that enrollments have been declining in the mid-seventies and will continue to do so throughout the eighties will do little to offset rising costs. Most of the cost of running a school district is accounted for by salaries and other fixed costs little affected by enrollment declines.

A school where third grade enrollment drops by, say, 12 students may be compared to a household where the oldest child grows up and moves out; the cost of running the household does not decrease noticeably.

As the single largest consumer of tax dollars, education is a popular target for tax relief proposals. But, attractive as the notion of tax relief is on its face, it is probably inconsistent with maintaining an effective school system. There simply is not much fat in school spending — not nearly enough to allow a significant tax cut. The sad fact is, any major cut in spending would come right from the living tissue of our educational system.

THE OFFICIAL QUADRENNIAL LIST FOR THE YEAR OF 1979 FOR GRANITE CITY TWP.

Herewith is a list of Quadrennial Rate assessments as made by the township assessor of Granite City Township, Madison County, Illinois, and returned to James W. Bartos, Supervisor of Assessments.

The assessed values shown are subject to revision by the Board of Review and the Board of Equalization by the State Department of Local Government Affairs.

The publication which is made in accordance with Section 103 of the Revenue Act, serves as public notice to the taxpayer of the value of the assessed values fixed upon their property by the township assessor of the forswald township.

Taxpayers who consider their property incorrectly assessed may appear before the Board of Review and file a complaint in writing within 30 days of date of publication, all within such time as otherwise provided by Section 108 of the Revenue Act.
